Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Wolcott School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Wolcott continuously works toward improvement through a District Growth Plan and individual School Growth Plans. These plans are rooted in a shared Vision of the Graduate. Through this document, we strive to ensure that students take a proactive and self directed approach to learning, engage in and contribute to the local community and beyond, and demonstrate critical core knowledge and skills.

We provide a strong program of professional learning for faculty and support staff to improve their skills in the development and implementation of individualized education plans (IEPs), curriculum, and teaching and learning that aligns to the goals of the Connecticut Core Standards (CCS).

The Student Services Department continually strives to improve parent communication and engagement. The district utilizes the CT-SEDS platform for much of this communication. We review, revise, and improve documents that are shared with families at PPT, 504, and other meetings to ensure that family members are well apprised of their rights and our services in a way that is understandable to families.

We use SRBI for both behavior modification as well as academics, and we continue to implement instructional and assistive technology strategies to ensure that all students can access the curriculum.

The district uses a proactive approach to chronic absenteeism/ truancy in a subcommittee that examines attendance data and reaches out to parents through letters, phone calls, emails, and home visits. When necessary, the district partners with local agencies, including DCF, juvenile court, and community-based mental health service providers to support students and families in resolving attendance issues.

There are parent-teacher organizations at each school. District level administrators, school based administrators, and teachers use monthly newsletters and weekly "blasts" through a tool we have invested in called Parent Square, that keeps parents informed about what is happening at the district, school, and classroom level via email, text, phone calls, and a digital bulletin board.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Wolcott has a long-standing partnership with the Area Cooperative Educational Services (ACES). ACES has partnered with the district to train administrators and lead teachers on school climate as it relates to teaching and learning with an equitable lens. In the 2022-2023 school year, the district updated its policy on Equity and Diversity as well as its policy on responding to Bias/Hate Based incidents.

Wolcott actively recruits educators with diverse backgrounds via area career fairs.

The district participated in Hartford and Waterbury magnet schools, sending approximately 150 students each year.

Our participation in the CAPTivating Kids initiative is purposefully designed to connect students with those from other cultures and demographics. We have also been working with People Investing In People, this program is designed to have high school students help students in Africa learn Technology, through video chat.

Through our own curricular efforts and also through programming with our parent groups, students gain access to a wide variety of cultural programming and events. Schools hold "town hall" meetings, community outreach events, Model UN, and presentations aim to bring a wide variety of cultural perspectives to students of Wolcott.

The 30 members of our district-wide data team continually research and address disproportionalities and equity gaps in data about student outcomes. Addressing equity gaps is a mandatory portion of each administrator's yearly performance evaluation.

We are actively researching and pursuing greater variety and representation in instructional materials such as classroom reading libraries.

Equitable Allocation of Resources among District Schools

The budgeting process in Wolcott is based on making the Vision of the Graduate come to fruition. This includes a strategic budget process. Each building principal assesses the needs of the school as it relates to their school growth plan which is in turn connected to the Vision of the Graduate. The budget is then created during individual meetings with budget owners, administrative council meetings, finance committee meetings, and strategic budget meetings with the Board of Education.

Classrooms across the district benefit from an excellent teacher to student ratio, and every effort is made to balance class sizes across the district.

The IT department has a technology plan that ensures equity across buildings on a continuous cycle.

In regards to intervention, the students who need more support receive it. The interventionist's time is equitably divided between the schools with lower performance. For example, all schools have access to math and reading interventionists, but those schools whose data shows more need, will receive more intervention time from personnel to support this effort.
