Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Canton School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Canton Public Schools work diligently to engage and support each and every learner, their family/guardians, and our community in order to ensure the performance and growth of our students. Our district has worked diligently to identify areas of excellence and opportunity in order to improve our regular and special education programs.

Under the leadership of our Director of Pupil Personnel Services, the district has restructured multiple services across its continuum. Increased reading and behavioral supports have been implemented as well as a program to support student regulation. The department has also completed a review of their practices and continues to restructure and realign, as necessary, to support the needs of the students across the district. Work within the department operates in alignments with federal requirements established within the Individuals with Disabilities Education Act (IDEA). Our district provides an array of specialized services to support students academically, socially, emotionally, and behaviorally in a least restrictive educational environment. Families and students are guided and supported throughout the educational process.

The Canton Public Schools prides itself in its ability to create an environment in support of engagement and belonging. School teams develop school climate and culture plans which are coupled with thoughtful homeroom and advisory programs. Understanding that student performance and wellbeing are at their highest when students are connected with caring adults, our staff create strong relationships with students in and out of the classroom. Similarly, the schools value communication and community involvement by our guardians and families. Our music and arts performances are widely recognized and attended, as are our multiple curricular celebrations. Further parent teacher and student led conferences add to the communication. The district continuously reflects on communication practices, providing newsletters, video productions, community forums, increased social media, and a renewed website. Of particular note are the Community Workshop series, held with area professionals in youth services to support our community, families, and guardians. Additionally, as available and appropriate, parents and the community are invited in to the schools to partner in active learning.

As a district, Canton focuses on ensuring students are well known and well supported. Improvements in student data systems, universal screening, and standards based assessment have provided increasingly clear data used to support the academic, attendance, and behavioral needs of students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Canton Public Schools has engaged in foundational work to support equity within our schools. First and foremost, Canton's students are well known by the staff as individuals. The staff work hard to understand strengths, opportunities, interests, and backgrounds. In recent years, the district has worked to deepen its student data to provide clarity on student performance and experience to ensure students are well known. Coupled with student data, staff work to develop high quality learning experiences in support of grade level standards and supportive of student needs.

The district has also worked diligently in the arena of equity through a district equity and belonging plan and equity team. This work is supported by capacity building for staff to better understand instructional equity practices and cultural competence. The district has worked with Partners for Educational Leadership to support their equity team and equity and belonging plan.

in achieving equity in our schools and community. The goal of this work is to build capacity in equity based concepts and actions with administrators, teachers, staff, students, and the community. Our staff continue to attend meaningful professional learning which includes Igniting Change, CAPSS Conference, SERC training, and Partners for Educational Leadership training.

Canton also works to support belonging through school culture and climate plans in support of positive behaviors and restorative practices, Unified Sports is an active sport in our K-12 programming, classroom libraries with expanded "window, mirrors, and doors" to support cultural awareness at all grade levels, the administration of school climate surveys to staff, students, and families.

The district also works in support of our students and families participating in the Open Choice program. Our district Open Choice Liaison works directly with students, families, and staff to support the entirety of our district. The district also has implemented an Increasing Educator Diversity plan aiming to expand the communication of openings in the district, improve the hiring process, and support pathways of diverse representation within schools.

Overall, the district works diligently to support the realization of the Vision of the Graduate for all.

Equitable Allocation of Resources among District Schools

The Town of Canton and the Canton Board of Education work together to develop a budget, using a zero based forecasting method, that is fiscally responsible to move the school district forward while maintaining the obligation to meet the individual needs of the students in the Canton Public Schools.

The budget process begins with all administrators presenting their budgets to the Central Office Team, presenting a forecasted budget, then refining the budget based on the district's Continuous Improvement Plan in order for approval by the Canton Board of Education.

Budgets are developed with the following priorities in mind: Fund contractual obligations while staffing the school district at a level to promote high levels of student achievement, Ensure that all class sizes remain within the Board of Education's class size guidelines, Meet the individual needs of students receiving special education and related services, and .Support the academic and social emotional needs of our students.

Budgets are developed with funding that is necessary to educate our students in alignment with our vision and mission for the district.
