Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Graduation Rate Gap	.	.	.	.	

¹If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

²If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served. Gap calculations are based on unrounded rates.

Narratives

Chaplin Elementary School is a Pre-K through Grade 6 School, located in the northeast corner of Connecticut. The school has a population of 158 students, with 21.5% of the student population having a diverse ethnic background. CES qualifies for the Community Eligibility Provision which ensures that nutritionally balanced breakfast and lunch is available for all students at no cost each day school is in session.

Our fifth-grade students continue to participate in an inter-district program with schools from the northeastern portion of the state. Faces of Culture brings together students who have little opportunity to engage with culturally diverse peers to broaden understanding and respect for others by exploring the peoples and cultures that make up our nation. These experiences open the eyes of students to topics such as biases and prejudice.

Connecting our literature program with The Ridgefield Playhouse offerings to Title I schools, students were able to view historical performances that connect to our texts and topics. The units of study in literature allow our students to explore the actions and impacts different groups have on society as a whole and the groups that are directly affected. Readings inform the students of historical background knowledge that allow them to use compassion and empathy as well as realize that people of all types have similar needs to maintain safe environments and to be a part of the same local community.

The Media Specialist focuses learning times on having students learn about different cultures and time frames in history. Students discover that similar issues are spread across the world. They discuss ways in which they can change the small area in which they live and that if all people make a small, positive impact, the result can be great.

Maintaining an awareness to our student and family unique and diverse needs is critically important as we cooperate with outside groups to assist families in need.

The students of Chaplin have the option of enrolling in the local inter-district magnet school which selects students by lottery.

Equitable Allocation of Resources among District Schools

Chaplin is a one school district. Responsible use of funds ensures equal access to digital resources for all students by maintaining a classroom one-to-one digital environment. All resource staff are available to work with students in every class Pre-K through grade six as well as to consult with both certified and uncertified staff to give all students an equal chance for success across all avenues. Chaplin Elementary School held a Summer Learning Academy prior to the beginning of this school year. This gave students the opportunity to maintain their skills and to move forward on skills in where existing gaps exist. CES has increased its enrichment opportunities for students with the addition of language programs as well as STEAM activities.
