Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Colchester Public Schools (CPS) remains dedicated to aligning school improvement initiatives with district goals, anchoring the year's endeavors in the theme of Pride and Purpose. With a focus on fostering an environment where students feel connected, accepted, and ready to learn, CPS cultivates a supportive and inclusive educational community. CPS organized numerous after-school events this year aimed at fostering family, student, and community engagement and to support learning at home. Additionally, the Special Education Department hosted two events to educate families and stakeholders on connecting with post-school transition services, programs, and supports, and engaging in financial and benefits planning for students with complex needs, in order to empower students and families as they plan for transitioning into adulthood. CPS places a strong emphasis on supporting student wellness through ongoing community engagement and feedback. A Student Life Working Group was established, which collaborates on initiatives to enhance student well-being.

The active involvement of parents and community members drives collaboration and input within CPS. With active Parent-Teacher Organizations (PTOs) and the introduction of Pride and Purpose Working Groups (Student Life, Professional Culture, Bacon Academy Magnet, Facilities, and Trust, Image, and Perception), CPS ensures that diverse perspectives are considered in decision-making processes. Each group presented its progress at Board of Education meetings, promoting transparency and accountability within the district.

Efforts to Reduce Racial, Ethnic and Economic Isolation

CPS has continued its efforts to reduce racial and ethnic isolation by ensuring that certified and paraprofessional staff receive training in the foundational work on Nine Identities, Oppression, Diversity, and Inclusion.

This year, cohorts of 15-20 students continued their training with National Conference for Community & Justice (NCCJ) to further the development of student leadership teams aimed at enhancing the acceptance of all students. Both middle and high schools continue to offer extracurricular clubs designed to reduce bias. These clubs, including the Gay Straight Alliance, the Peer Advocacy League, Student Ambassadors, Unified Sports, and Unified Arts, provide avenues for students to actively engage in fostering inclusivity within the school community. In an effort to reduce economic isolation, CPS continues to collaborate with neighboring towns to designate Bacon Academy as a high school of choice. Already, students from Norwich and Franklin attend Bacon Academy, and work continues to expand this option to include students from other neighboring towns. CPS submitted a magnet school application/proposal to the CSDE in hopes to introduce a magnet school component to Bacon Academy.

Colchester School District

Equitable Allocation of Resources among District Schools

The development of the budget is a collaborative process that commences with administrators and directors working with their respective leadership teams to identify needs in alignment with the mission and goals of CPS. The administration then works with the central office team to balance resources across schools to develop a final proposal that is presented by the Superintendent to the Board of Education.

Central Office administrators work with school principals and their Literacy and Math Instructional Coaches to review student data and identify needs for Federal entitlement grants. The administrative team meets regularly throughout the year to make adjustments to spending as needs change. CPS also works diligently with the State of Connecticut to secure grant funding to support our community with the School Readiness program at both the CPS Pre-School and another local preschool provider. This program not only prepares our youngest students academically for kindergarten but also nurtures their social and emotional development.
