Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Samuel Staples Elementary School: During the 23-24 school year, Samuel Staples Elementary School (SSES) focused on three priority goal areas for their school improvement plan: improving students' oral reading fluency, strengthening students' problem-solving skills in mathematics, and increasing teachers' use of high impact instructional strategies. Teachers' professional development this year was largely focused on our core reading series, CKLA, Building Thinking Classrooms, and Exemplars. End-of-year grade-level goal targets were set for reading and math measures, and all teachers created goals of their own around these targets, providing many opportunities to analyze student growth. In terms of parental outreach during the 23-24 school year, we maintained an active PTO that worked in partnership with the school, encouraging parents to get involved and support school and district initiatives. They wrote a biweekly SSES SCOOP Newsletter in which they reported on town, school, and district events. We invited families to volunteer for Shelf Elves in the Media Center and Field Day, and school-wide events, including Back-to-School Night, Art Show, Talent Show, and a winter and spring choral, Orff, and band concert. Along with issuing interim reports, two report cards, and hosting two parent-teacher conferences, teachers welcomed parents into the classroom to be guest teachers, help with projects, and celebrate their children's birthdays with a game, story, or craft.

Helen Keller Middle School: During the 23-24 school year, Helen Keller Middle School (HKMS) focused on three priority goal areas for their school improvement plan (SIT): increasing teachers' use of high-impact instructional strategies (HIIS), improving student learning outcomes (both formative and summative), and improving family engagement and school climate. We developed several approaches to achieve these goals involving professional learning and progress monitoring. Along with John Read Middle School (Redding), HKMS hosted two EdCamps, one focused on HIIS, a second focused on vertical alignment of curricula, both of which were facilitated by teachers, consultants, and administrators. We have also conducted ongoing learning walks, from which we collected data related to HIIS and our other SIT initiatives. Our school climate committee has adopted an action research model of change. Students dug deep into the school climate data and developed an awareness camp and an improvement project based on hurtful and hateful words they experience on-line and on social media.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Samuel Staples Elementary School: For 20 years now, our commitment to the Open Choice program remains strong. SSES continued to look for and provide meaningful opportunities to increase student awareness of the diversity of individuals and cultures. We had 11 students enrolled in grades K-5 for the 23-24 school year. Classroom libraries and materials continued to be enriched with instructional materials that matched the ethnic backgrounds of the students in each classroom. Teachers have used these materials and a variety of instructional methods to stimulate multiple ways of learning and understanding the differences in people. Teachers have tried to challenge stereotypes and correct misinformation about people through literature, poetry, presentations, and songs. Building globally aware, ethnically sensitive, and culturally astute learners is among the most important responsibilities we have at Samuel Staples Elementary School. Along with the PTO, we have provided families scholarships so that students can purchase books at the book fair, yearbooks, class t-shirts, and attend field trips.

Helen Keller Middle School: HKMS also participated in the Open Choice program, this year we have 5 students from outside the district. Our weekly newsletter and podcast have a regular feature addressing our Diversity, Equity, and Inclusion initiatives.

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning and community involvement.

Teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that ensures full participation by members of the staff and full transparency to the community.
