Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The school district engages in an annual strategic planning cycle of continuous improvement to support the district mission, core beliefs, Vision of the Farmington Global Citizen, Equity Framework and goals. Individual schools create their school improvement plans based on an analysis of school-based data and student learning needs. This school improvement process relies upon collaboration among all stakeholders including parents, to set the improvement plan for the school. The school development process involves annual planning and accountability measures that demonstrate progress toward the goals. School and district plans, as well as annual results and outcomes, are posted on the district's website. School Development Plans as well as a Program and Special Services Development Plan are included to ensure all students achieve academic and personal excellence, exhibit persistent effort and live as resourceful, inquiring and contributing global citizens.

Administrators, teachers, school-based social workers and psychologists engage directly with children and families to address the academic, social and emotional aspects of educating the whole child including good attendance in school and participation in all aspects of the well-rounded education provided in Farmington. Throughout the school year families are invited and encouraged to participate in special events and advisory board/PTO meetings all designed to strengthen the home-school partnership. Schools host Curriculum Open House nights, Community Conversation Evenings, parent conferences, transition meetings and many other community events that build a strong sense of belonging for all families and children. Farmington is a school district that provides many during the day and after school programs to allow students to become involved in their school community in meaningful ways.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Farmington Public Schools remains deeply committed to the letter and spirit of the law intended to reduce racial, ethnic, and economic isolation through local and regional school and district programs. Students have a multitude of opportunities to experience a variety of cultural enrichment programming throughout students' K-12 experience. The town's rich history is integrated into the curriculum with deliberate attention to learning history from different perspectives. Farmington's continuing commitment to the Open Choice program provides important educational and social experiences for all students. Farmington has participated in Project Concern, now Open Choice, for more than 50 years, and the district continues to welcome approximately 140 Choice students each school year. All schools in the district have a designated Family / School Liaison who coordinates experiences and activities designed to develop a strong sense of belonging to an inclusive community. These facilitators also plan learning experiences to increase all students' intercultural competencies and awareness of diversity. The district has established a Community Council for Equity and Inclusion with representation from teachers, administrators, families and students who meet regularly to provide feedback on the district's our school's improvement goals from an equity lens. A comprehensive Equity Framework guides the development of priorities and progress checks each year. Farmington's commitment to improving student achievement while simultaneously addressing educational equity, inclusion and diversity is well established. Our Equity Framework ensures we approach this work in a comprehensive manner.

Equitable Allocation of Resources among District Schools

The Farmington Public Schools' budget is presented to the town following a two month process of school and program budget reviews and adjustments with principals, central office administrators, and program directors. The Board of Education conducts a thorough review of the budget recommended for consideration by the Superintendent. The budget is prepared to support the district mission, Vision of the Global Citizen, core beliefs and resource allocation through the lens of equity and access. A comprehensive Theory of Action guides improvement design and efforts throughout the school district. This process ensures that the budget is allocated appropriately by school and by program and the resource allocations reflect the priorities and goals of the Board of Education as well as the data-driven strengths and needs of students.
