Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Glastonbury School District

Narratives

Glastonbury Public Schools has committed to reducing racial, ethnic, and economic isolation through various initiatives and partnerships. Our efforts span interdistrict programs, professional development, and community engagement activities designed to foster a more inclusive and diverse educational environment.

Since its opening in 2012, The Glastonbury-East Hartford Magnet School has welcomed students from surrounding towns, providing a diverse learning environment. Currently, over 300 Glastonbury students participate in magnet schools throughout the Hartford region. Glastonbury Public Schools is also a long-standing participant in the Open Choice program, which allows students from Hartford to attend schools in suburban districts. This year, we hosted over a dozen families at the Nayaug School annual Open Choice Welcoming Day and supported three community-building events through the Community Connectors program to build relationships between Open Choice families and other Nayaug families.

This year, Glastonbury Public Schools co-sponsored a recruitment event with UConn's Leaders in Diversity group and received a grant from the Connecticut Alliance of Regional Educational Service Centers (RESC Alliance) to support our efforts in attracting and retaining a diverse staff.

We continue to partner with ADL, including programs and training for teachers and students across grades 6-10. These programs included facilitated briefings, role-playing, and direct instruction aimed at reducing bias and promoting inclusive interactions. Gideon Welles School maintained its "No Place for Hate" designation for a third year; Smith Middle School initiated its partnership in grades 7 and 8, and Glastonbury High School's "Names" programs helped students navigate and resolve conflicts constructively.

Appointed in 2021, the Director of Equity, Diversity, and Inclusion role supports administrators and teachers in promoting equity and elevating the experiences of all students. The Director of EDI has expanded the district's EDI Council to include parents, students, staff, and a Board of Education representative. The council's activities foster open dialogue and increased awareness of bias and culturally responsive practices.

Equitable Allocation of Resources among District Schools

Glastonbury Public Schools ensures equitable resource allocation and addresses student needs through a comprehensive and structured approach. Our standards-based curriculum, differentiated by grade level and content area, guarantees consistent learning experiences across all schools. Pacing guides monitor progression through units of study, ensuring equity in educational delivery. Instructional practices and assessments are grounded in evidence-based research, with instructional coaches in literacy and mathematics providing targeted support at each elementary school. Curriculum directors oversee instruction across all content areas, supported by a universal assessment calendar and data analysis system to track student progress and inform decisions.

The Glastonbury Board of Education's policy ensures that material and financial resources are equitably distributed across all schools, based on the approved budget and student enrollment. This approach, aligned with our commitment to equity, ensures all students have access to high-quality education and support, fostering a structured and responsive educational environment.
