Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Mansfield Public Schools has completed the third year in a five-year strategic plan that focuses on a continuous development and improvement process. The plan aligns to six core beliefs through specific actions tied to three strategies: Ensuring Deep Learning, Knowing Students, and Supporting the Whole Child. Action plans and indicators connect the strategies to specific targets that drive professional learning and improved student outcomes. Reports of Progress, which highlight actions and outcomes, are presented to the Board of Education three times each year. A great deal of effort is devoted to supporting students not yet meeting grade level expectation. Teachers collect evidence of student performance and regularly come together with their peers to analyze student work and design instruction. Data literacy, aligned assessments, and student portfolios allow for educators to best understand the profile of a Mansfield learner. For students who need additional support, direct intervention and specialized instruction is provided through Multi-Tiered Systems of Support (MTSS). Attention to developing social, emotional, and behavioral skills is provided both through classroom instruction and by school counselors, social workers, psychologists, behavior technicians, and in partnership with Youth Services. This work includes truancy prevention and promoting school daily attendance. The district continues to develop multi-tiered supports for students while embracing school-wide enrichment for all children.

"Building Partnerships" is one of our six core beliefs. Families, and indeed the whole community, are recognized as necessary partners in the work of educating children. The schools use a variety of strategies to inform and engage the public. At the district level, regular whole community newsletters are mailed to every household 2-3 times a year. These highlight the work of schools and the achievements of its staff and students. Schools send weekly communications to families that share information regarding various events designed to build community and showcase the work of the school, teachers, and our students. Student-led conversations and celebrations were developed, along with student portfolios, to help our families better understand their child's progress. Schools continue to offer families opportunities to learn about our curriculum, instruction, and support services.

Finally, families are invited to actively participate at the district and school level through monthly advisory meetings, the district Diversity, Equity, and Inclusion Team, hiring committees as well as through PTO's. Each school has an active care team that supports wrap around services and conducts outreach through home visitation. Care teams work to connect families in need with town/state services and agencies.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Mansfield is a diverse community that includes people with a variety of racial, ethnic, and culturally rich identities. 29 different languages are represented by our students. To ensure our schools are both reflecting this diversity and supporting equitable experiences for all, we undertook a comprehensive equity audit that was conducted in collaboration with a formal review of special education and special services programs. Both reviews were completed by outside agencies. The results were shared with the Board of Education and school staff and have supported continued efforts in these areas. As a result, the district formed a Diversity, Equity, and Inclusion Team that is tasked with monitoring, advising, and advocating for equity work within the district. The DEI Team meets three times a year. The DEI Team launched an interactive Diversity Calendar and promoted a change in the District School Calendar. Work to provide professional learning supports our first core belief, "Lead with Equity." We have started to translate key documents in multiple languages, provide online translation services through the Language Line, and have submitted a Diversifying Workforce plan to ensure our staff reflects the diversity of our community and students. Mansfield has increased the diversity of new hires through recruitment efforts and work with our local university partners. Finally, we are using shared readings, coaches, and opportunities to increase culturally responsive teaching within our schools.

We have continued to work with outside agencies such as the Akomawt Education Initiative and the Witness Stone Project. Our relationship with a school in Upper Saxony, Germany has also continued as twenty students visited Germany in this three-week exchange program. Students are further provided experiences in diversity through clubs such as the Unity Club and field trips to such places as the Pequot Museum.

In addition, some Mansfield residents choose to send their children to local magnet schools. While the numbers are low, we partner with the magnet schools to ensure students who need special education support are well served.

Equitable Allocation of Resources among District Schools

Annual budgets are developed by district leaders to reflect the needs of our students and staff. Each budget is unique and changes annually based on enrollment, program development, and needs. In recent years, enrollment has decreased, but innovation and supporting high quality services have remained the same. Title I and III grant funds are distributed based on student need.

Professional learning experiences are shaped by the goals of the district and schools and reflect a core belief to “Grow Educators.” Mansfield continues to support teacher leadership through service, participation in local, state, and national conferences, and to provide opportunities to take on additional responsibilities. Multiple pathways for advanced studies, heterogeneous classes, a robust MTSS intervention plan, and school wide enrichment ensure that all children have equitable access to curriculum. Schools offer robust extra-curricular activities and clubs that include sports, drama, math, history, and science/STEM.
