#### Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

## Middletown School District

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

| Indicator                                                 |                     | Index/Rate    | Target | Points Earned | Max Points  | % Points Earned | State Average Index/Rate |

## Middletown School District

### Narratives

#### School District Improvement Plans and Parental Outreach Activities

Middletown Public Schools (MPS) strives to meet the needs of ALL students so that they will demonstrate personalized growth and achieve at high levels to thrive in life. MPS prioritizes the continuous improvement of teaching and learning; the transformation of operations, systems, and structures; the development of choice and innovation models; and the creation of equitable learning environments. Several key strategies to achieve these include the implementation of culturally relevant curriculum, personalized learning opportunities for students, instructional and social-emotional supports through a multi-tiered system of supports (MTSS), expansion of early childhood education, and the continued development of high school options and pathways.

MPS's special education services continue to make intentional changes to the allocation of resources and supports to be more strongly anchored in educationally sound decision-making practices, and to connect to mental health, social-emotional, and trauma-focused needs. These steps have included a reorganization to intentionally divide special education and student behavioral supports in order to provide stronger focus to both of these two areas, and the further definition and expansion of the Intensive Case Management program, including at the pre-K level. To support the social emotional learning, wellness, and mental health of all students, the Middletown Social Emotional Learning & Intervention (MSELI) framework has been implemented at all schools. This includes the use of a universal screen, CASEL standards, and evidence-based practices to incorporate social and emotional learning into the curriculum.

MPS is committed to utilizing data-informed approaches to decrease rates of truancy and chronic absenteeism. MPS utilizes Unified Insights as a data warehouse to allow for comparisons between the many available data sources. Schools have begun to utilize new automated attendance technology to more accurately account for student attendance. Middletown High School is a member of the RISE network, providing access to attendance data visualization tools and collaborative processes for improving attendance for 9th graders and beyond. District and school attendance teams convene regularly to improve Tier I, II, and III supports for student attendance.

MPS believes in the value of full community involvement, including families every step of the way. MPS utilizes Family Engagement Liaisons to forge school-family and caregiver partnerships as a key strategy to create equitable learning environments. All schools in the district rely on families to collaborate to make key decisions and develop School Improvement Plans through School Governance Councils and School Leadership Councils. During the 2022-23 school year, the district also introduced the Parent Leadership Training Institute which is a series of workshops for parents and guardians to learn how to be leading advocates for families through an evidence-based curriculum and this program has continued to grow during the 2023-24 school year.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

Middletown continues to offer programs for students, staff, families, and community members designed to enrich interaction and understanding among Middletown's diverse educational community. Equity is central to the goals of MPS and is the foundation of the MPS Instructional Vision. During the 2023-24 school year, Middletown worked to educate all stakeholders on its Equity Policy to ensure that all actions and decisions reflected the values of celebrating and sustaining our pluralistic community. School staff participated in revamped monthly Diversity, Equity, and Inclusion professional learning focused on authentic problems of practice in the school communities. Middletown organizes initiatives to celebrate all backgrounds, including read-alouds to recognize Hispanic Heritage month and events to honor Black history such as learning experiences on the Amistad and a traveling Black History museum.

Essential to the district's efforts to reduce racial, ethnic and economic isolation is the Director of Diversity, Equity, and Inclusion (DEI). The director sits on cross-functional teams to ensure that programs and initiatives are considered through an equity lens. The director also supervises DEI Change Agents, a team of specially trained educators that lead equity-focused professional learning opportunities at the school level. At Middletown High School and Beman Middle School, students serve as Junior DEI Change Agents to lead equity circles and learning opportunities among their peers.

Finally, the Seal of Biliteracy has continued to scale up at Middletown High School, allowing multilingual students and those learning additional languages to be recognized as biliterate on their high school transcripts. This seal communicates the specialized knowledge of these students and recognizes language diversity as an asset for college and career. The Seal of Biliteracy is an example of the partnerships, collaboration, programs, and grants aggressively pursued by MPS in an effort to reduce racial, ethnic, and economic isolation.

### **Equitable Allocation of Resources among District Schools**

During the 2023-24 school year, a renewed School Improvement Plan process allowed the district to fully implement equity-based budgeting (EBB) and to gradually move toward school-based autonomy focusing on equity, transparency, and flexibility. EBB allows principals and content-area leaders to define the resources they need to drive student achievement based on student need in their individual school facility or department. The focus of educational resources shifts to the student and gives increased control to the principals. Weighted funding to align spending and individual student needs is being calculated for school-based budgeting.

During the 2022-23 school year, MPS revised and began the implementation of a 4-year state and federal grant plan that assesses facilities and educational needs. The revisions will ensure that all students attend schools that provide high-quality learning environments. Additionally, to monitor the equity-based budgeting described above, the district is developing a reporting mechanism to share to the Middletown Board of Education a quarterly report outlining individual school offerings and use of funds.
