#### Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

<sup>1</sup>If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

<sup>2</sup>If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

#### School District Improvement Plans and Parental Outreach Activities

The New Hartford Public Schools review and update the district's Strategic School Engagement Plans every year. Each school has a leadership team comprised of stakeholders across each school. The district's goals are aligned with each school's goal. Each School Improvement Plan is presented to the Board of Education and community yearly. District efforts will continue to focus on improving student achievement, school climate, and expanding the intentional use of technology to enhance educational experiences, curricular outcomes and provide targeted and personalized learning for all.

An integral part of our strategic plan and School Engagement/Improvement Plans are parent and community outreach efforts. The district solicited input from staff and parents relative to school climate and curriculum. The district will continue to attain staff, student and family feedback relative to the needs of the district. Additionally, the district has established virtual access to our Board of Education meetings.

The district's Special Education Department helped deliver a new literacy program to help students. Our Special Education Department will continue to implement a social-emotional screener in order to support all students and those specifically with elevated needs through MTSS groups. The use of the RULER curriculum both in working with regular and special education students highlights the district's commitment to improved social and emotional learning. The RULER curriculum supports universal language of SEL skills to support all learners. The Special Education Department presented its Special Education Program Plan again this past year that highlighted the goals of the department.

Districtwide and individual professional development of special education personnel has focused on training under the new statewide IEP system. Specific training of staff on support for dyslexia and programs to support those student needs has been supported throughout the school year and will continue in the coming years.

The district continues to increase our mental health supports for students. NHPS partners with the Connecticut Junior Republic to increase counseling opportunities to meet the social-emotional needs of our students. In a combined effort of New Hartford Public Schools and CJR, we were able to provide therapy and counseling to over twenty students, who would not have been able to be connected to therapists and counselors due to a myriad of restrictions. Additionally NHPS acquired a grant through a partnership with EdAdvance to increase FTEs, including an additional part-time school counselor. NHPS also maintained an increased mental health team, originally through grant funding but with the continued support of the BOE and Town funding have hired a full time school counselor.

With this team in place, NHPS is committed to addressing truancy and other student and family needs by visiting homes and working with community organizations. The district's student attendance continues to improve because of our outreach initiatives. NHPS utilizes the BESS screener to identify students in need of mental health supports. Students are supported through our MTSS process.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

The New Hartford Public Schools continued collaboration with surrounding districts, the Connecticut State Department of Education and regional school districts to reduce racial, ethnic and economic isolation. Some of the district's students attend interdistrict magnet schools. This past school year, eight students attended interdistrict magnet schools.

The district continues to plan activities that highlight the rich diversity in our state. The intermediate school will continue its time honored tradition of visiting the region's Native American Museum to study the numerous contributions of Native Americans to the State of Connecticut. The district will continue to plan educational activities that revolve around individuals from diverse backgrounds. Also, the district will continue to review our content area curricula to ensure an eclectic selection of reading materials are available for students.

NHPS has partnered with various community organizations to decrease food insecurity. New Hartford public libraries have supported all students in obtaining library cards for continuous summer reading initiatives. In addition, the public libraries have partnered with our schools to promote reading selections that match our students' varied ethnic and cultural interests, such as Black History and Hispanic Heritage months.

## New Hartford School District

### **Equitable Allocation of Resources among District Schools**

The New Hartford Public Schools work diligently to ensure that every student need is met. The district's administrative team meet regularly to develop a responsible budget that equitably devotes resources to every school. The district's 5 year Strategic Plan and School Engagement/Improvement Plans highlight the priorities of the district. Each school has instituted a School Improvement Committee that identifies resources that are allocated in an equitable manner. The district continued to invest in academic programs that meet the needs of every learner. New literacy and math programs allowed for differentiated instruction to occur throughout the district. The New Hartford Public Schools will continue to invest in technology based learning opportunities for every student. The administrative staff also worked cohesively with the district's PTO.
