Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

North Stonington Public Schools is an official candidate for district accreditation by the New England Association of Schools and Colleges. We are the first school district in Connecticut to start this process. Our vision of the graduate has become district-wide and includes the following skills and dispositions: Analytical Problem Solver), Collaborative, Literate, Communicative, Respectful and Responsible, Resilient, and Lifelong Learner. District improvement efforts continue to be centered around three specific goals including: 1. Imbed practices and procedures throughout the schools and curriculum experiences that ensure all students, staff, and families feel safe, valued and have a sense of belonging. 2. Design, document and implement innovative instructional opportunities that empower each learner. 3. Develop and follow efficient and transparent processes to ensure smooth flow of operations and enable increased focus on learning. We have several teacher leaders, one of whom served as a part-time curriculum coordinator. Plans are being implemented to increase the position to a Director of Teaching and Learning for next year. Our Professional Development and Evaluation Committee worked to create our new educator evaluation plan, which will be directly tied to the district goals. Parent and student surveys are administered annually with the goal of updated practices to ensure that people feel safe. Monthly advisory activities focus on the topics of respect, responsibility, and resiliency. At both schools, weekly email updates kept families informed of school events. North Stonington Elementary School hosted several family fun nights as well as a special person dance. Also, enrichment activities were increased through a STEM approach. The superintendent holds periodic meetings for parents and community members who want to learn more about the school district.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The demographics of North Stonington Public Schools have been very consistent over generations. The town of North Stonington is a small rural/farming and bedroom community of approximately 5,000 residents, of which about 750 are students in our PK through grade 12 school district. We border Preston, Griswold, Stonington, Ledyard, Montville, Voluntown and the Rhode Island Communities of Hopkinton and Westerly. Students can choose to attend North Stonington Public Schools or choose other programs of interest. Wheeler High School students can also attend the Westerly Education Center as part of his/her high school curriculum which is in partnership with Electric Boat. Next year, we plan to send two students to the Rhode Island Institute of Technology in a dual enrollment program for their senior year. Students who successfully complete the program are eligible for employment with Electric Boat. Our high school seniors completed senior projects which were shared at a Senior Project Day attended by numerous organizations and individuals from surrounding communities. The district is presently accepting tuition students from two bordering towns. The district has developed a relationship with Voluntown and Preston as Wheeler is now a school of choice. Wheeler High School has co-op sports teams with surrounding towns. In addition, we are exploring international opportunities for students and teachers. One of our teachers is participating in an educational experience in Spain during the summer.

Equitable Allocation of Resources among District Schools

Administrators and Department Heads were tasked with developing a building-based budget that comprehensively addresses the needs of all students. This initial budget, referred to as the "superintendent's budget," was presented to the Board of Education for further scrutiny. Beginning with the 2021-2022 fiscal year, the Board of Finance approved a "Non-lapsing Account" for the Board of Education. This account permits the Board of Education to carry over surplus funds, provided they do not exceed 2% of the previous year's total budget. This change allows for more strategic expenditures of surplus funds without the constraint of the fiscal year-end deadline, enabling better long-term financial planning and resource allocation. Government funding provided in response to the pandemic was instrumental in employing additional academic interventionists, particularly to bolster student learning in math. Recognizing the positive impact of these roles, the district planned to integrate some of these positions into the regular budget, based on detailed analysis of student data, conducted collaboratively by the district office, Student Support Services and both schools.
