Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Putnam School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Putnam Board of Education prioritizes student achievement for all. This is achieved through a collaborative approach between educators, support staff, and experts. Innovative teaching strategies, aligned curriculum, and effective assessments are key components.

A dedicated Professional Development Committee, composed of teachers and administrators, designs in-service programs aligned with board goals and individual teacher needs. Teachers actively participate in their own professional growth by setting goals linked to their evaluations. Additionally, the district collaborates with reading and writing specialists to improve instruction for all students.

To address individual learning needs, the district implements a comprehensive Scientifically Research-Based Interventions (SRBI) plan, encompassing both academic and behavioral support. Monthly after-school meetings are dedicated to professional development, further supporting teacher growth.

Data-driven decision-making is a cornerstone of Putnam's approach. Teachers utilize formative and summative assessments to refine curriculum, plan instruction, and monitor student progress. To improve attendance and support student well-being, the district collaborates with various local and state agencies, including EASTCONN, LEARN, TEEG, and the Groton Center. Initiatives like the morning late bus run and High Dosage Tutoring grant exemplify this commitment.

Additionally, school-based health clinics, run in collaboration with an outside health agency, address student behavioral needs. Increased support for special education programs is evident through the addition of a Board Certified Behavior Analyst (BCBA) and four Registered Behavior Technicians (RBTs).

The Board of Education actively seeks input from stakeholders through its five-year strategic plan, developed with community and school representatives. Each school contributes to the district's goals by submitting annual school improvement plans.

Our PTO also plays a vital role in supporting our students. They meet monthly with administration and teachers to plan events throughout the year, fostering a strong sense of community and family engagement in our schools.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Putnam Board of Education prioritizes two key goals: fostering equity and community involvement. This includes advocating for families, enhancing communication, and building strong partnerships. Additionally, they aim to support the social and emotional needs of students and staff through coordinated programs and services.

To achieve these goals, Putnam Public Schools offer a diverse range of opportunities that promote interaction among students from various racial, ethnic, and economic backgrounds. Collaboration with the Putnam Family Resource Center and Recreation Department helps reduce economic isolation by making after-school, weekend, and enrichment activities accessible to all students.

The district further expands student and family horizons by funding field trips to museums, zoos, theaters, and more. Additionally, all students in middle and high school can participate in team sports. The Gender-Sexuality Alliance (GSA) club at Putnam High School exemplifies the district's commitment to inclusivity. They co-sponsored and organized a successful town-wide Gray Pride event. Similarly, another student group co-sponsored a Juneteenth celebration.

Putnam Middle School participates in inter-district grants, exposing students to diverse student populations. Students also regularly interact with community organizations through required community service for graduation, fostering a sense of engagement.

Equitable Allocation of Resources among District Schools

The Putnam School District prioritizes quality education for all students. To achieve this core goal, the Board of Education offers diverse programs and opportunities. We utilize a needs-based budgeting approach, where allocations are determined by student requirements rather than past formulas. During this process, teachers collaborate with building principals to identify needs, and administrators work with the Board to ensure all district needs are met. Draft budgets are then presented to the community for feedback and revisions. Our Board of Finance finalizes the budget allocation amount for a vote by taxpayers at the annual Town meeting.
