Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

HVRHS offers specialized programming in its Mountaineer and ALPPS programming to address the needs of emotionally- and intellectually-challenged students while maximizing their involvement in mainstream programming. Students in these programs acquire vital skills that allow them to function effectively in the mainstream setting. Additionally, we offer Academic Labs and our Bridges alternative program to provide instruction for students with academic and attendance concerns, both of which are available to students in regular or special education. We also offer focused reading instruction using digital progress-monitoring tools. Inclusion in these programs is determined by IEP as well as by recommendation from middle school teachers and available testing data. The Bridges program provides a more flexible setting and daily schedule to encourage more consistent attendance by students who are at-risk for truancy. An Attendance Committee reviews schoolwide attendance data on a monthly basis to identify potential candidates for this program as well as to implement intervention programming to immediately respond to truancy concerns. The Housatonic Youth Service Bureau provides counseling that extends the capacity of our school counselors and a psychologist to meet the emotional and psychological needs of students who struggle with regular school attendance. Our Social Worker supports parents of students as well as students themselves who are identified by our Student Assistance Team as High-Needs. Last year, we developed a Parent Teacher Organization to connect teachers more closely with our parents through a series of planned activities. Additionally, we opened a School Based Health Center, staffed by a licensed nurse practitioner and a licensed social worker, the former a mainstay of the local medical community. This LNP can provide more robust medical support for students within the school building, keeping them in school, addressing their physical and health needs and working in concert with the LSW to provide mental and emotional supports. Lastly, we offer College Planning, Financial Planning and athletic meetings for parents to assist them in those areas. Virtual parent meetings attracted greater numbers of parents than traditional meetings, and we will continue to engage parents with this tool in the future.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Our district has approved a diversity, equity, and inclusion policy and is working with students to develop an organizational response to racial, ethnic, and economic isolation by discussing the situation of minorities in our community and developing ways to celebrate the diversity we have in our midst. Last year, students and a local artist collaborated to create a mural that reflected our organizational value of diversity, in the process generating important conversations about how we see it in our community and how we express that value in aspects of our school. Additionally, our American Field Service program is one of the most established in the state. Since the 1940s, we have brought students to our school from a variety of countries, and this past year, we hosted six students and featured their stories in an evening event that was attended by several dozen community members and peers. Our 21st Century Fund also sponsored field trips and study-abroad programs in support of our International Travel Club, which offers numerous field trips to Japan, Scotland, and other international destinations. These are planned on a rotating basis in collaboration with students, and fund-raising makes a concerted effort to make these trips affordable and accessible to all students who want to travel. Our Capstone program includes Technical Advisors that are solicited from the local towns. Our Envirothon team, composed of culturally and economically diverse team members, continues to compete in throughout the region and country. Our nationally-recognized Agricultural Education Science and Technology program attracts students from all six communities and tuition-paying students from neighboring school districts in MA and NY. Students from varying backgrounds work collaboratively to enhance the opportunities and issues in agriculture-related fields not only for their own education, but also for the community at large.

Equitable Allocation of Resources among District Schools

Our school is the only high school in the region, and our budget process begins in the fall with the development of budgets by our department heads, Pupil Services, and our Regional Support Service Center (i.e., central office). These proposals are presented to the Budget Committee of the Board of Education for consideration and aggregation into a draft budget that is presented to the full board for consideration and feedback. Once the drafting process is complete, the finalized budget is put to a referendum among all of the member towns, and the budget is approved or denied based on the total number of votes cast among all towns in the region.
