Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 10

Narratives

School District Improvement Plans and Parental Outreach Activities

Regional School District 10 strives towards high levels of achievement and engagement from all our students. We know that this starts with a strong home school connection built upon a shared understanding of what high quality learning means for all students and a commitment to ongoing, partnership and communication. This experience starts with our preschool students in both elementary schools and extends to family college and career events at LSM. Every planned activity in RSD10, i.e., transition-year orientations at Kinder, Grade 5 and Grade 9, open houses, parent conferences, family engagement workshops, art and performing arts showcases, the PowerSchool app, weekly principal newsletters, user-friendly school and district websites, and our community newsletter called The School Bell is viewed as an opportunity to partner with and educate parents in best practices to support their children. We have thriving PTOs at each of our schools, a parent-led Booster Club at LSM and their partnership with building leadership and teachers is an essential through-line of communication. The Continuous Improvement presentations made by all principals at our Board of Education meetings each year are open to the public and we invite parents to be attendees at those presentations. Presentations include data review and analysis in multiple academic and school climate areas of focus. Once the presentations about school goals have been made, they are posted on our district website.

Our literacy and numeracy curriculum, K – 8 in particular, have authentic parent components that we incorporate into our parent relationships in support of academics and learning opportunities that extend beyond the classroom. Events such as STEM showcases, Invention Convention, the Scholastic Book Fair, school plays, community read-alouds, visual arts fairs, author visits, and musical performances are held to build community and engage families in multiple expressions of and opportunities for student learning. At the end of each school year, we update our Summer and eLearning resources page on our district website for families with vetted, diverse, academic and socially engaging content for families to tap into throughout the summer. This includes, but is not limited to, summer reading and Math activities, museum passes, podcasts, mindfulness exercises, whole-body fitness and foreign language activities that extend learning from the academic school year.

Regional School District 10 continues to engage in a continuous improvement process at the district, school and classroom level which prioritizes teaching and learning goals based on multiple data sets beyond student performance data with an equal focus on strength, areas of need, and student growth. We are also very much in an iterative process of developing our Shared Definition of High-Quality Learning as a community and ensuring our Vision of the Graduate is alive and well at all levels of our district. This effort is undertaken by multiple stakeholders, including students and families. Continuous improvement plans at each school are outcome driven with collaborative decisions around professional learning, resource allocation, curriculum revisions, use of Professional Learning Community time, standards review, data analysis and areas of instructional focus all as integrated parts of our school and district improvement.

Efforts to Reduce Racial, Ethnic and Economic Isolation

RSD10's intentional work is guided by a board-approved DEI Statement and Commitments. We foster social and academic opportunities for students and staff through meaningful exploration of diverse cultural, linguistic, racial, ethnic, and socio-economic identities by offering windows and mirrors into a global society. Each school has identified climate efforts to increase students' feelings of belonging. We continue to deepen our practices in social-emotional learning through the CASEL 5 framework and in the Universal Design for Learning framework for embracing the diversity of learners. Each school has teacher leadership teams that focus on the SE well-being of students and staff. Our K-12 literacy programming includes Culturally Responsive Read-Alouds, Identity-Mapping, diverse classroom libraries/book club options, and meaningful writing prompts that support the identities of all students. Our district's Equity Audit, and resulting action steps, was a springboard for adult learning around the creation of equitable classrooms for all students and for ongoing efforts to ensure positive, diverse representation in our curriculum K – 12 in all areas of study. Our Professional Learning Choice Board for faculty includes extensive learning opportunities in the areas of emotional wellness and equity for all. The district's music, visual arts, social studies and world language programs are also essential access points for students to gain an awareness and appreciation of the diversity of the world. Namely, cohorts of students have attended the SERC Dismantling Systemic Racism Conference, undergone training by the National Conference for Community and Justice, and engaged in extension opportunities such as the Witness Stones Project, and field trips focusing on Chinese Mythology and Indigenous peoples. Our K - 8 Library Media Specialists are deeply invested in providing students with books and author visits that explore the world. We have expanded our physical libraries to include an electronic library for K – 12 students and there are intentional book acquisition efforts to provide titles and authors that are diverse and support exploration of differences and the familiar. Our goal is to provide opportunities for student growth, empathy, and awareness beyond the self.

Regional School District 10

Equitable Allocation of Resources among District Schools

RSD 10 works to ensure an equitable distribution of resources among its schools through a budget process that involves the Board of Education, administration, staff, parents of school children, and our two communities as a whole. Site-based administrators identify priorities and discuss in forums with all staff. A detailed budget document and public budget workshops provide staff and taxpayers with a clear and transparent view of the budget. Schools receive guidance on overall prospective spending levels and district goals but are allowed to allocate resources as they see best at their individual sites. Financial resources are allocated based on enrollment and program requirements at each site. Budget submissions from the schools reflect both contractual and legal requirements, as well as program needs and goals that support student growth. The Superintendent of Schools presents the budget to the Board and schedules a series of public meetings to encourage participation in the budget process. These meetings are used to ensure the budget accommodates all programs fairly. Region 10 works in concert with all stakeholders to plan accordingly for future growth and expected needs.
