Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

District Profile and Performance Report for School Year 2023-24

Regional School District 14

Narratives

School District Improvement Plans and Parental Outreach Activities

Region 14 Schools' Five-Year Strategic Plan is centered around the four goals of the Region 14 Board of Education: 1) The district will strive to improve academic performance for all students on multiple assessment indicators and the staff will be committed to continuous improvement; 2) Region 14 will develop partnerships with all stakeholders in the school community to highlight the exemplary programs the district offers; 3) Region 14 will provide safe and secure facilities equipped with technology, enabling a 21st century learning environment that supports the values of the district; and 4) Region 14 will prepare a budget that meets the needs of every student and communicates the needs and priorities of Region 14 in a clear and concise manner.

In pursuit of continuous improvement in academic performance, Region 14 employs two part-time interventionists at each elementary school and two full-time interventionists at the middle school and high school to provide support in literacy and math. Each elementary school and the middle school also have instructional leaders for literacy and math. Our multi-tiered system of support includes after school intervention services for students in grades K-8 receiving tier 2 supports. Special education programming and services have improved through the addition of two certified teachers (one elementary and one middle school) along with four Registered Behavior Technicians for behavioral support. All paraeducators in the district have access to online professional learning modules to personalize their learning to best meet the unique needs of the students with whom they work. Region 14 also has an integrated preschool program which has expanded this year to include three PreK-4 classes and one PreK-3 class.

In alignment with the belief that students are at their best socially, emotionally, and academically when they regularly attend school, each school has a plan in place to address chronic absenteeism which include a combination of the following strategies: Weekly review of attendance via a school-based committee for student success; assignment of a case manager or counselor specifically for attendance purposes; utilization of the monthly chronic absenteeism report provided to the CSDE; communication with parents and guardians via letters and phone calls; Awesome attendance awards given out every trimester to both student and parents/guardians; and home visits from the social worker, coordination with the Juvenile Review Board, and, as needed, communication with DCF.

Parents and guardians are an integral part of the educational process. Each school and the superintendent has a parent advisory group to provide feedback and ideas for improvement. In addition, the elementary schools and middle school have active PTOs that support and organize supplemental programming at each of the schools. At the high school level, a GradNite committee of parents help with senior activity planning and the Agriscience Alumni organization supports the nationally recognized agriscience program. Curriculum nights provide information and resources to parents to assist students at home with math, literacy, and science curricular content. In addition, open houses at each school, parent conference nights, and weekly newsletters connect parents/guardians and teachers in support of the students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

In Region 14, we believe it is important to provide students with curricular content, resources, and experiences that both mirror their own cultural, racial, ethnic and economic perspectives and support exploration of perspectives different from their own.

Bethlehem Elementary: All students participated in Sanford Harmony Diversity Lessons.

Mitchell Elementary: All students participated in the "Be Kind" project, parent-led lessons on Chinese Lunar New Year, Hispanic Heritage read-alouds, extensive Black History lessons with a final project gallery walk which parents attended, and salsa dance lessons during morning meetings.

Woodbury Middle School: All students participated in discussions led by John Ramos, speaker at Equity & Excellence Imperative, on embracing diversity and accepting differences and participated in monthly activities through mixed grade-level advisory classes focused on Black History, Hispanic Heritage, kindness, and Words Matter.

Nonnewaug High School: Dr. John Ramos facilitated diversity training with the Student Athletes' Council to build capacity for discussions among student leaders and led diversity workshops with all juniors. UConn ECE Spanish students read to elementary students during Hispanic Heritage Month.

Districtwide: Teachers utilized resources provided by CSDE to celebrate Hispanic Heritage, Black History, and Asian American Pacific Islander cultures, traditions, and contributions. The PASS Survey and school climate surveys measure student connectedness to school and feelings about school in grades 3-12. Through the surveys, daily student/teacher interactions, and meetings with counselors, we identify students who may feel isolated, help them connect, and identify ways to improve school culture and climate. Region 14 expanded job postings to all areas with CT certification reciprocity and added a writing prompt requiring applicants to describe their understanding of diversity and how human differences shape learning needs, perspectives, and school experiences with specific instructional strategies and supports they would employ to meet the needs of diverse learners, nurture respect and inclusiveness, and enable all students to reach their potential. Responses are further discussed during the interview process.

Regional School District 14

Equitable Allocation of Resources among District Schools

Region 14 is committed to providing comparable financial support to each of its four schools to ensure the resources necessary to improve student achievement are available. All school and district administrators participate in the zero-based budgeting process, revisiting their needs annually to develop a budget that represents the current and projected needs of the students and schools. Emphasis is placed upon resources aligned with district improvement goals and curricular needs with consideration of the student populations in each building, and intervention and special education needs. This planning process leads to the preparation and presentation of the budget, then its subsequent adoption and implementation. Throughout the fiscal year, the use of resources is consistently examined to ensure the allocation of resources continues to be equitable.
