Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Seymour Public Schools are steadfast in our commitment to nurturing individual student growth through differentiated instruction and challenging learning opportunities. The Seymour Board of Education has approved a mission that serves as a guiding light for our district's endeavors. Our aim is to fully understand our students as learners and to empower them through a diverse range of experiences that uphold high standards for learning and equip them to thrive in an ever-changing world. Seymour Public Schools are unwavering in a commitment to fostering individual student growth through differentiated instruction and challenging learning opportunities.

We are dedicated to enriching our K-12 curriculum development and implementation to provide students with many opportunities to collaborate and engage with relevant and stimulating learning experiences across all subject areas. Our goal is to nurture well-rounded individuals who demonstrate compassion, resilience, and the ability to tackle challenges with confidence.

Our approach to supporting student learning is multifaceted. Teachers utilize Scientifically Researched Based Interventions to offer academic and behavioral support to students identified through comprehensive screening and ongoing assessments. In K-5 classrooms, we employ Responsive Classroom practices, while at the middle and high school levels, Positive Behavioral Interventions and Support frameworks are utilized to provide students with a comprehensive support system.

Teachers and leaders conduct regular data reviews to evaluate program effectiveness and monitor individual student progress, particularly for those receiving intervention or special education services. Students may receive instruction in various settings, including general education, special education, in-district special programs, or other appropriate placements, ensuring that their unique needs are addressed.

Through a planned multi-tiered system of support (MTSS), teachers and counselors utilize data to match academic and social-emotional behavior and instructional resources to each student's needs. This deliberate approach enables educators to utilize resources judiciously and effectively while using data to monitor their actions.

At the preschool level, integrated preschool classrooms serve as a foundation for early learning. Additionally, we provide a range of related services to students with disabilities, including specialized classrooms, counseling, therapy, and access to specialized equipment. Strategic transition planning is a priority at all levels, from elementary to high school, to ensure seamless transitions between grade levels and into post-secondary options.

Family engagement is paramount to our approach, and we actively foster partnerships with parents and the community to support student success both academically and socially. We continually strengthen our school, family, and community partnerships, providing resources, information, and opportunities for engagement throughout the year. Surveys are utilized to gather feedback and insights to better support families, and our goal is to equip families with the tools and support they need to enhance their children's learning experiences beyond the classroom.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Seymour Public Schools are steadfast in our commitment to promoting understanding and appreciation of diverse racial, ethnic, and economic backgrounds within our society. Our mission is centered on fully understanding our students as learners, inspiring them through a variety of experiences that uphold high standards for learning, and preparing them to navigate the challenges of our ever-changing world. Educators actively incorporate learning activities that celebrate diversity into our curriculum and instructional practices. By delivering a robust academic curriculum alongside social-emotional learning programs, students are provided with opportunities to embrace differences within a supportive and inclusive school climate. Throughout the school year, we continue to educate students on diversity through our curriculum, school-based clubs, and a multitude of enrichment activities. Our dedication to integrating technology ensures that every student has access to technological resources, enabling students to engage with district-approved platforms across a range of subjects, including math, literacy, science, social studies, and Spanish. Our staffing model incorporates a school counselor at every school, providing comprehensive counseling services and support to families beginning at the elementary level. Programs in the arts further promote understanding of cultural diversity, with visiting presenters providing cultural and historical presentations to enrich students' experiences. Real-life experiences and projects play a crucial role in heightening student awareness and cultivating empathy towards racial, ethnic, and economic diversity. Course offerings are diverse and inclusive, encouraging students to explore a wide range of cultural backgrounds, career paths, and educational opportunities. These include rigorous programs in manufacturing, health, business, career, technology, advanced placement, early college experiences, and over thirty dual certification classes. We cherish and celebrate the diversity of our student body. We unequivocally reject hate, racism, and prejudice in all forms, and they have no place within our schools. Students are encouraged to communicate openly with teachers, fostering an environment of trust, respect, and mutual support.

Equitable Allocation of Resources among District Schools

The goals of our Strategic Plan serve as the cornerstone of our budgeting process, guiding the equitable allocation of resources to support our educational objectives. School principals engage in thorough reviews of needs and priorities, gathering input from staff, and then present a comprehensive budget request to the Superintendent, facilitating a collaborative discussion to evaluate the necessity and potential impact on student learning. This process allows for consideration and refinement of budget allocations to ensure fairness and equity across schools. The Superintendent presents the recommended budget to the BOE during budget workshops, emphasizing its alignment with goals and initiatives, in relation to district-wide objectives and their impact on student learning. Input is sought from the broader town and community. As part of the annual town budget process formal meetings are held. The budget process reflects a collective commitment to providing the necessary resources to support the educational mission of our district. Through this collaborative and transparent approach, we strive to ensure that our decisions effectively serve the needs of our students and community.
