Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Waterford School District

Narratives

Respecting cultural, racial, and economic differences remains a priority for our schools. Our District Equity Team has met for its fourth year. The District Equity Team has formed four subcommittees to write a District Equity Plan to be embedded into the District Strategic Plan. Our School Equity Teams continue to meet and carry forward the training and learning to school staff.

Our elementary District Equity Team representatives collaborated with an equity liaison through LEARN to advance our focus on equity by expanding classroom libraries and materials that convey varied perspectives for students to explore and think critically.

Waterford Public Schools continue to offer our students the opportunity to attend various high schools in the region. Transportation is provided to the following schools, the Agricultural Science and Technology program at Ledyard High School, Grasso Technical High School and Norwich Regional Technical High School.

Clark Lane Middle School implements a weekly mental health check that includes counselors, our SRO, school administrators, our psychologists and social worker. These sessions focus on assisting students that are struggling and provide supports as needed. Unified Insights, a demographics and analysis tool, enables us to look at many aspects of student performance and needs as an invaluable tool. Unified Insights can inform us about student testing performance, enrollment, admissions, and suspension information. Clark Lane Equity and Understanding Team has met on multiple occasions to discuss all aspects of improving issues of diversity and increasing students opportunities through an equity lens.

Waterford High School continues to partner with three K-8 school systems as a school of choice for their high school students. All students with counseling sessions in their IEPs and 504 plans meet regularly with related services personnel. All students are encouraged to seek out support when needed. All students have equal access to devices and resources throughout the school.

The District has launched a one-to-one device program. The goal of the one-to-one device program is to promote the use of technology to enhance the educational program for all students and provide equitable access to technology.

Equitable Allocation of Resources among District Schools

It is the policy of the Board of Education and the practice of the school system that resources are allocated equally among all schools. Each elementary school teaches the same curriculum and uses the same adopted texts and resources. Each school budget is developed through a formula based on the number of classes and students in the school.

Technology resources are distributed equally among the schools in the district according to a technology plan approved by the State of Connecticut. Each of our elementary schools has been designed the same, with each school having the same number of interactive whiteboards, computers, and computer labs. The elementary schools have just about equal populations due to Waterford's redistricting from five to three elementary schools, which was done to achieve more equity across the schools.

Each principal oversees the distribution of resources in their school. The Director of Finance & Operations and the Assistant Superintendent also look at each school and the district as a whole to ensure resources are allocated equally. Class sizes are monitored and adjusted at the district level, ensuring equality across grades and schools.
