Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

The Berlin Public School District has a long-standing history of commitment to a continuous improvement process. The administration has collaboratively developed a detailed continuous improvement plan, with action steps in relevant areas: performance, alignment with the Vision of the Graduate, and social emotional practices. The Berlin Board of Education reviewed and adopted an updated version of the plan in November 2022.

District efforts to address student truancy have included collaboration with the Department of Children and Families and Berlin Social Services. Board policy requires parents to contact the school when their child is absent. If a parent neglects to contact the school, school personnel make every effort to contact the parent on the day of the absence. Student attendance is closely monitored, tracked and recorded. This year, we continued the Common Ground program at McGee Middle School, through which identified students have opportunities to participate in recreational activities outside of the school day, providing an avenue for students to develop social relationships with caring adults and other students. This program is implemented in collaboration with the Town of Berlin's Social Services Department.

Berlin is committed to supporting students in their least restrictive environment and our special education services have been developed to support this concept. The district has expanded programming for students with significant needs by developing a comprehensive team approach to address their unique learning needs. Our transition academy provides community-based services to 18-21 year olds. The Central Connecticut Transition Academy partners with Cromwell Public Schools to provide services to our students. Our special education department continues to address significant needs by creating programs to best meet the needs of learners and supporting them with appropriate resources, including staffing and related services.

Recognizing that parent partnerships are a vital piece of the school district's success, we welcome parent volunteers, who are considered a valuable resource to our schools. Numerous school-sponsored activities occur throughout the year with high parent participation. Annual surveys are used to better understand parent perceptions regarding the school district and areas requiring improvement. We utilize a number of communication tools including the website, social media, SchoolMessenger, and monthly videos to ensure that parents have access to events and happenings occurring throughout the district. SchoolMessenger was recently upgraded to reach families in various languages identified by them. Additionally, parents have the opportunity to participate in the Superintendent's Parent Advisory Council, which provides a forum for parents to learn more about district initiatives, give input, and to raise any questions or concerns that they may have.

Information for families is posted on the district website.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Berlin Public Schools provide a variety of programs and experiences that are designed to reduce racial, ethnic, and economic isolation.

Our participation in the Open Choice Program is districtwide, with 99 Open Choice students enrolled in our five schools. Through Open Choice grant funding, the district provides late bus transportation so that students from the Open Choice program can more easily participate in sports, clubs, and other extracurricular activities beyond the school day. Open Choice liaisons are in place at each school to provide an additional layer of support for students and families. The liaisons also attend the RSCO Fair each spring to share information with families about the Berlin Public Schools.

Berlin High School continued its work with its Equity Imperative, continuing to address the goal of creating a high school culture where all students feel accepted, respected, and celebrated. They have continued to support events during Black and Latino History months, including bulletin board displays and library displays. We continue to review our Language Arts/English curricula and make changes to offer more diverse literature selections, as well as investing in the purchase of more diverse texts for classrooms and school libraries.

District literacy specialists and library media specialists are required to add diverse texts to their classroom and building libraries. Additionally, they augment curriculum with various texts that represent multiple identities.

More than 20 educators attended pathways presented by the RESC Alliance related to creating welcoming schools and grading for equity. There are plans in place to review the physical layouts of schools and websites. The district has committed summer curriculum hours to teams who want to work on this. The grading team is planning to visit grading practices with the secondary teachers next year.

The district brought in a consultant to work with our administrative team and teachers throughout the school year about the issue of equity. Teams looked at artifacts from schools to make recommendations for changes and implemented those.

Equitable Allocation of Resources among District Schools

It is the practice of the Berlin Board of Education and its central office administration that each school in the district will have comparable resources while recognizing factors such as equipment and specialized supply needs at the secondary schools are inherently more costly in nature. The proposed budget for the district is created by administrators in the late fall. It is built on the assumption that the three elementary schools will receive a fixed amount for each student enrolled in the school. This will "guarantee" an equitable allocation of resources among the schools. Once that assumption is met, adjustments are then made to determine what additional resources would be allocated to particular schools to adequately address needs particular to a certain school. The same process is then used at the two secondary schools. However, a different per student fixed amount is used because of the significantly higher costs as mentioned above.

Once the proposed budget is adopted, appropriate reductions, if necessary, are made "across the board," and the same per student expenditure ratio described above is maintained as closely as possible.
