Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Sherman School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Sherman School District has developed a comprehensive Communication Plan as well as a five-year Strategic Plan which we anticipate will enable us to achieve our vision. Our strategic plan will address the "Instructional Core" (including programs and services for students with disabilities), "Student Enrichment" (to ensure students attend school and are invested in their learning), and "Parent Engagement" (to involve parents in their child's learning).

Our communication plan outlines the different ways we will use social media, email, newspapers, our website, and our mobile app to ensure that all stakeholders stay informed about the work of The Sherman School.

This year Sherman School has continued to improve. Revision of curriculum documents and the development of new units that align with the Social Studies Framework is ongoing. Our teachers and staff continued to work as a professional learning community, where our effectiveness is based on results. Student progress is analyzed, and data-driven decisions continue to be made about teaching, learning strategies, and supports through our SRBI and Special Education process and teams. This year our school used the Star 360 assessments in Early Literacy, Literacy, and Math as benchmarks to monitor the progress of our students as well as Smarter Balanced Interim Assessments.

This year, we enhanced our SRBI process to include interventions for truant students. Our team established a process for notifying and supporting families whose students were considered truant. Through email, phone calls, and face-to-face meetings, our faculty and administration worked to develop positive relationships with families and students and get to the root cause of school avoidance as well as other considerations that lead to truancy.

Our Positive Behavior Intervention and Supports program continues its success, and through town meetings and special events our upper and lower grade students are brought together to further strengthen our school community. To complement PBIS, The Sherman School Steering Committee conducted in-depth research to choose a social-emotional learning program to be implemented next school year. Professional development for teachers began in the spring and will continue into the fall of the 2020-2021 school year.

The Sherman School involves families in their children's education. This year when we were forced to engage in emergency remote teaching, we partnered with parents to make the learning experience as effective as possible under the circumstances. To that end, our faculty and administrators created a series of online workshops for families on topics such as navigating online platforms such as Seesaw, Google Classroom, and PowerSchool, supporting learners by fostering independence and developing a growth mindset, and ideas for promoting well-being through self-care and coping strategies. These workshops were recorded and made available to families on our website for future reference.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Sherman community continues to make an effort to reduce racial, ethnic, and economic isolation. Many integrated language arts/social studies activities were designed to increase students' awareness of cultural and individual diversity. Assembly programs, which often focus on cultural diversity, have been presented to the K-8 students. A highlight of the 2019-2020 school year was a visit by a Holocaust survivor who came to speak to our middle school students about his experiences.

In order to deepen their understanding of our commonalities and celebrate our differences, students read a variety of books that deal with ethnic bias, immigration status, and economic and social position prejudice. Our guidance staff provides activities for our students to enhance their skills for awareness and tolerance of others. Our art program has a wide variety of multicultural activities, which include discussions of cultural origin and how art objects are integrated into and representative of those cultures.

Equitable Allocation of Resources among District Schools

Sherman is a district of one preschool to grade eight school.
