Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Family engagement in student learning is a district wide goal for all teachers and administrators. Individual schools employ strategies to invite family participation within the learning process. Family workshops are held to introduce curricular topics including literacy nights and math workshops. Guest readers, PTO monthly presentations on current curriculum and instructional topics are also ways in which Southington partners with homes. Families of incoming kindergarten children receive a "Welcome" packet which includes numeracy and literacy information with activities for home.

The special education department held several evening events for families of identified students on topics ranging from transition programming for our 18-21 population to preschool programming available to students identified via the birth to three program with topics ranging from readiness skills to examples of a typical kindergarten day. Orientations are held at the middle and high schools for families new to the schools. The overarching goal is to make the transition into school as smooth as possible, regardless of the level.

Technology allows for easy communication with families and for those with limited access, a system of telephone "all-calls" is used to ensure that information is shared about relevant topics. Teachers use technology to connect with families using websites, apps, and regular correspondence such as newsletters to engage and inform families.

Celebrations are routinely held within all our schools to honor students who become authors, artists, and athletes. Monthly Board of Education meetings provide the time for honoring and acknowledging the efforts of all students who achieve personal and or team goals.

The superintendent's adopted goals directly feed the same process for administrators and teachers, ensuring focus and coherence of district priorities. Additionally, student growth goals are utilized to monitor progress across levels and within disciplines district wide. SRBI processes provide timely intervention and assistance for students when necessary. Early release professional development allows for vertical articulation meetings amongst staff from various schools, grade levels, and content areas. This scheduled collaboration time focuses on best practices, student needs, and ensures fidelity to the curriculum. The district is proud of the efforts to develop, implement, and sustain programs for parents, families, and students that promote wellness and academic achievement for all.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Southington's effort to reduce racial, ethnic, and economic isolation are critical in every aspect of the organization. This includes our parents, teachers, staff, and the community. Ethnic and cultural customs are embedded in the language arts, social studies, history, music, and art curriculum, Pre-K to grade 12. Instructional and cultural arts programs focus on the appreciation of world diversity. STEPS (Southington's Town-wide Effort to Promote Success) support students within our community by analyzing survey data administered every two years and then facilitating specialized programs based on identified needs. One of the focus areas of the survey is cultural responsiveness.

Additionally, the district embraces the Principles of Emotional Intelligence endorsed by the Yale Center for Emotional Intelligence. This initiative recognizes and values differences amongst us, promotes an awareness of our own dispositions, and promotes self-regulation when needed. The district also employs Paul Vivian and Audley Donaldson, two gentlemen from different backgrounds with a depth of experience and knowledge around implicit and explicit bias, stereotypes, and gender equity. Their sessions provide cultural competence education to our 3rd, 5th, 6th, and 8th graders across all schools.

The Southington Public Schools Coalition for Social Justice which was formed to address issues of diversity, equity and inclusion across the district, expanded into a community based organization. Concurrently administrators and teachers participated in multiple sessions facilitated by SERC to guide the District Equity Leadership Team (DELT). This DELT morphed into a high school specific team which integrated actionable items to be implemented during professional development time during the 2022-2023 school year. This team will serve as the model for all other schools in the district.

Southington High School students also participate in the Greater Hartford Academy of Math and Science and Greater Hartford Academy of the Arts inter district magnet schools.

Equitable Allocation of Resources among District Schools

Board of Education policy provides for input from administrators, staff, parents and students in the development and allocation of its budget. This input, along with a system of per pupil allotments, ensures that each school receives an equitable share of the district's resources. In reaching the final determination of budget allocations, the Board and central office staff take into consideration such factors as the student population served, the age of school facilities, student performance on local and state testing programs to ensure equity and to address legitimate needs. The Board of Education supports the allocation of resource staff for the purpose of implementing early intervention plans for students. In addition, special education instructional staff, paraprofessionals, literacy, and numeracy staff are assigned based on student need. The special education department employed the services of an outside agency to conduct an audit this year to identify successes and areas to improve. Overall, the results will provide the district with potential opportunities to deliver more efficient services.
