Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 5,586

Number of school-based arrests: Fewer than 6

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The Office of Specialized Instruction, helmed by an Executive Director, provides specially designed instruction and related services. Specifically designed instruction is determined by the student's Individualized Education Plan (IEP) and is based on an individualized assessment of the student's disability and needs. The district's Planning and Placement Team (PPT) and the student's IEP determine related services to support the educational program. Additional associated services such as Psychological, Speech and Language, Occupational Therapy, Physical Therapy, Health, Social Work, Hearing Impaired, Autism Consultation, Behavioral Consultation, Assistive Technology Consultation, Vocational/Transition and/or Transportation may be delivered in the general education classroom or the related services room.

Bridgeport Public Schools (BPS) is committed to reducing chronic absenteeism across all schools throughout the district. The district is committed to closely enhancing data collection systems and procedures to monitor student participation and attendance during the school year. It remains focused on Tier 2 intervention strategies developed by the District Attendance Team. It is working to continuously involve all stakeholders, improve student engagement, and create regular attendance habits that ensure that students benefit from all learning opportunities. BPS is committed to providing support to students, families, and schools to ensure that all students have a healthy educational environment where students feel accepted, welcome, and safe at school. These supports include school-based attendance intervention, district-wide data progress monitoring, social-emotional learning, and restorative practice programs. BPS is also committed to building and maintaining relationships with all our community partners in this work.

The Plan continues to focus on professional development programs designed for all school staff levels, specifically for implementing the District Policy and Procedures Manual. There is a commitment to continue these efforts, with an aggressive approach to resource management/enhance practices; however, decreasing availability of fiscal resources represents a significant barrier to addressing the delivery of services to students identified under IDEA.

The English-speaking student population at Bridgeport Public School has continued to grow since 2015. The district offers various comprehensive language services for English learners, including its newly open Newcomers Arrival Center "" a place where the needs of our immigrant families who require interpretation, assistance, and resources within the educational system. Additionally, the district offers Transitional Bilingual Education, English as a Second, Native Language Support, Language Transition Support Services, and Tutoring Support. The English Learner programs help English Learners attain English proficiency and develop high-quality education in an actively engaging environment. All students thrive as bilingual, bi-literate, and bi-cultural productive 21st-century citizens.

The district continues to support and engage with our parents and guardians as they work at home with their children on continuous learning. By providing additional technological devices and direction to provide access to viable and ongoing internet services, we have worked to ensure our students ca

Efforts to Reduce Racial, Ethnic and Economic Isolation

BPS continues to recruit students to our inter-district magnet schools via multi-media strategies. The thematically designed Interdistrict magnet schools are targeted to engage the interest(s) and career path(s) pre-identified by students and families. The lottery application process is available via the BPS website. Our ongoing efforts to reduce racial, ethnic, and economic isolation are further strengthened by funding opportunities at the intermediate school level, which provide additional resources for culturally relevant student participation. Our goal is to stimulate early interest in STEAM fields. The district has sustained a summer and year-long program to introduce students to the language of coding, engineering, and the arts. In an area woefully underrepresented by minorities, this represents an opportunity to teach transferable college/career preparedness skills. Our strategy is based upon a process that centers upon student teachers, interns, teacher recruitment. The district's commitment to this process has lent itself to reflection & collectively engaging in foundational work to create the culture/climate that will enhance our ability to retain our diverse talent. BPS is committed to and has continued its cultural competency programming. In addition to the training, the district continues its year-long training in social-emotional learning for students, teachers, administrators, and families. We have continued the New Teacher Orientation Program, and utilizing data from the previous year's session, this aided us in acquiring information to continue to impact teacher retention positively.

Equitable Allocation of Resources among District Schools

Bridgeport Public Schools is committed to the equitable distribution of fiscal resources across all schools. A school-based budgeting model, grounded in accountability and empowerment at the school level, is in effect. The Allocation Model, posted to the web, has two (2) parts: (1) a position allocation, comprised of equitable, uniform staffing formulas, built on student registers and student needs; and (2) a discretionary operating allocation (per capita), designed to enable schools to purchase basic supplies and services and through effective fiscal management, derive discretionary resources. Schools utilize online systems in the areas of procurement and payroll. In March/April, the CFO conducts allocation webinars with principals to apply the Allocation Model; and review the school organization and staffing process in preparation for the new school year. During the online seminar, school-specific needs are discussed, and verified data are considered in applying the allocation formulas within the equitable model context.
