Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 47

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Indicator		Index/Rate	Target	State Average Index/Rate

Graduation Rate Gap	94.0%	78.3%	15.7%	9.8%	Y

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

Clinton Public Schools is committed to unifying efforts to ensure continuity of learning experiences and maintain high expectations for students. The framework for this effort is rooted in the district's strategic plan that is anchored by a compelling mission, strategic priorities, and initiatives that specify action steps that are used to guide and focus improvement efforts. The strategic plan encompasses the areas of academic achievement, personalizing learning, healthy and supportive school communities, clear communication, and effective resource utilization.

Special education services have seen growth in the development of core on-site programs to meet the needs of students in the district. Special education teachers and paraeducators supported specialized instruction in-person, and when students were learning from home, to ensure that required and necessary services were provided to our students. Staff participated in training in structured literacy, technology, and social-emotional wellness, and provided explicit instruction in these areas to our students.

Monitoring attendance was critically important and systems were developed to ensure students were engaging in learning when they were in a hybrid or remote model that required learning at home. Students who did not attend school consistently or demonstrated difficulty participating remotely received outreach from counselors, administrators, instructional specialists, teachers, and paraeducators. Supports were tailored for individual circumstances in an effort to reduce chronic absenteeism and truancy and to provide appropriate monitoring and support during the pandemic. The ability of the district to offer in-person learning for the majority of the school year was beneficial in ensuring students attended school and truancy was reduced.

Communicating with and engaging families in student learning became critical for the district as we faced the need for at-home instruction due to the pandemic. This was accomplished through clear and regular updates to parents regarding school learning plans, safety measures, responses to local cases, and contact tracing. Technology was utilized as a communication, teaching, and learning tool. Remote learning and virtual meetings became a method of connecting students, families, teachers, and administrators and facilitated open and clear communication. The district utilized grant and local funding to implement a 1:1 Chromebook and Chrome Tablet initiative and supported families in need of internet connectivity. Staff utilized the Google platform in grades 2-12, and the SeeSaw platform in grades pike-1 as a means to support student learning and connect with parents. Specific staff were identified to support parents and students when learning remotely, providing live lessons, additional instruction, and technology support as necessary. The challenges of remote and hybrid learning were met effectively as the district was able to provide synchronous instruction to students on remote learning days and adopted a concurrent teaching model for hybrid models and to support students in quarantine or isolation. The district elicited parent feedback through surveys, video meetings, and school outreach, and successfully adapted to the changing public health and learning needs throughout the school year.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Clinton Public Schools benefits from a community that is growing in its racial, ethnic, and economic diversity. The growing number of English Learners in the district has prompted a shift in programming to meet this need. Staffing has been added to support students learning English and all district communications are not sent in Spanish and Portuguese. The district initiated evening video meetings hosted by administrators and the Nurse supervisor, and engaged native speakers to participate and provide translation services. These meetings were to support families for which English is a second language, and improved our ability to communicate important health and safety information related to the pandemic and to answer questions from parents. In addition, these efforts helped to foster greater understanding and stronger relationships with our families. Clinton students continue to have an opportunity to participate in the inter-district magnet schools in New Haven, the Sound School in New Haven, and the Marine Science Magnet School in Groton. Curriculum reviews were conducted to ensure that multicultural and inclusive perspectives were embedded in the student experience. A Social Justice Club was formed at the high school and developed various activities for students to engage in social justice topics and causes. District Leadership was involved in equity training, and participated in a regional network on Race, Racism, Equity and examined issues of school-based implicit bias, and a minority recruitment event. The impact of the pandemic on families led to greater economic stressors and isolation. The district responded to family needs through collective giving, expanding opportunities for breakfast and lunch for all students, and through connecting families to community services and supports.

Equitable Allocation of Resources among District Schools

The district is committed to ensuring that all schools receive the resources necessary to effectively implement educational programming and support implementation of the Strategic Plan and attainment of its objectives. Enhancing instructional practice, providing high-quality materials and technology tools, ensuring balanced and quality curricular offerings, supporting professional learning for staff, and maintaining core programs are the priorities for decisions about resource allocation. The district leadership works collaboratively with town leadership to build understanding and support for district budget requests. The Board and administration work diligently to contain costs and reduce expenses in budget areas such as transportation, utilities, health insurance, and special education. The budget development process is open and transparent and allows for public participation and input. In addition to the operational budget, the district annually submits a ten-year plan for capital improvements and has made thoughtful decisions based on its facilities and enrollment evaluation in order to ensure budgets and facilities can continue to appropriately support student needs.
