Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Even during the pandemic, NBFA sought to implement a tiered intervention framework. Classroom teachers, in collaboration with reading and math specialists, worked to provide targeted Tier 2 and/or Tier 3 evidence-based reading interventions in a blended learning model to students performing below proficiency.

Under NBFA's model, a classroom teacher, instructional assistant and one reading or math specialist is assigned to each classroom. The specialist facilitates small group instruction in the classroom and provides embedded coaching to the classroom teacher and/or instructional assistant. The specialists co-design lessons and assessments with the teacher during weekly designated collaborative planning time for 2 hours. The specialists assist with the selection of evidence-based literacy and numeracy center activities. Speech and language, social work and occupational therapy are provided by Board of Education ("BOE") employees. A BOE school psychologist is responsible for testing all students having initial or triennial evaluations completed. Regular progress monitoring is conducted based on students' IEP goals. Each student has an Annual Review. Parents and guardians play an active role. Two certified special education teachers work alongside the team, pushing in to provide additional interventions.

In the height of the pandemic, combatting chronic absenteeism was a major focus of NBFA's. the team used every communication tool possible and even made some home visits to encourage families to send students to school. NBFA worked with the Department of Children and Families for especially challenging cases.

Under normal circumstances, truancy is not an issue at NBFA. Students and families are attracted and retained by: 1) the district's relationship-based, trauma-informed model; 2) its philosophical handling of behaviors that might otherwise warrant suspension; 3) concerted efforts to engage families through programs, workshops and events; 4) educating families on school and state attendance expectations; and 5) conducting home visits to story gather and develop meaningful relationships with families and/or address absentee trends.

NBFA is committed to partnering with families on a deep and intimate level to address any underlying issues that may stand in the way of their child's future success. NBFA does story-gathering in the beginning of the school year to engage and educate parents. This process allows families to share critical information about their child/ren's learning habits, likes/dislikes, and any other pertinent information. Throughout the year, workshops are offered onsite and informational newsletters are sent home by the teachers and the school. Additionally, social media is used (website, Facebook, Instagram, TikTok, Snapchat and the school's blog).

Efforts to Reduce Racial, Ethnic and Economic Isolation

New Beginnings Family Academy is a single district charter school that admits students by blind lottery. That means the school does not have very much control over the student population it enrolls. Nevertheless, NBFA seeks to attract and retain a diverse population through its bilingual outreach efforts. All communications (fliers, letters, automated calls, etc.) are sent out in dual languages.

Perhaps the most effective strategy NBFA uses to reduce racial, ethnic and economic isolation is in its commitment to hiring a diverse team of administrators, teachers and other staff. More than 35% of NBFA's staff are Black and Spanish-speaking Latinos, assuring that families and their children see adults in the building who represent their background and culture.

Equitable Allocation of Resources among District Schools

New Beginnings Family Academy maintains tight fiscal control over costs and raises approximately 15% of its operating budget through private philanthropy to supplement the per pupil funding it receives from the state legislature. This formula has kept NBFA viable since its inception and will continue to do so until charter schools are fully funded by the state of Connecticut.
