Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The New Hartford Public Schools update the District's Strategic Plan and School Improvement Plans every year. Each school has a School Improvement Committee comprised of stakeholders across each school. The district's goals are aligned with each school's goal. Each School Improvement Plan is presented to the Board of Education and community yearly. The district continues to focus on Improving Student Achievement, School Climate, and Expanding Technology based learning opportunities for all students. The district has improved significantly in each of these areas.

An integral part of our District Strategic Plan and School Improvement Plans are parent and community outreach efforts. The district solicited input from staff and parents several times during the past year. The district surveyed parents/staff several times during the school year to gather feedback on COVID-19 mitigation strategies. The district increased virtual access to our Board of Education meetings. The district specifically surveyed staff and parents regarding the needs of the district. The district focused on ensuring a safe and healthy environment for all students and staff during the pandemic. The district offered full in-person learning the entire school year despite COVID-19 challenges.

The district's Special Education Department helped deliver a new literacy program to help students who exhibited learning loss over the past year. The Special Education Department expanded our Extended School Year to accommodate more identified students who struggled academically and socially over the past year. Our Special Education Department delivered a social-emotional screener for all students to help them transition back to school successfully. The Special Education Department delivered its Special Education Program Plan again this past year that highlighted the goals of the department.

The district partnered with the Connecticut Junior Republic to increase counseling opportunities for our students. The social-emotional needs of our students increased. The district's Social Worker visited homes and worked with community organizations to address truancy. The district's student attendance improved this past school year because of our outreach initiatives.

Through district Professional Development, staff learned new technology platforms to communicate with parents in a more robust and consistent manner. The district utilized "Google Classroom" for students who were absent due to COVID-19 absences. "Google Classroom" is the main learning platform for the district. Pupil Placement Team meetings were held virtually as well to engage parents.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The New Hartford Public Schools continue to work with the Connecticut State Department of Education and regional school districts to reduce racial, ethnic and economic isolation. Some of the district's students attend Interdistrict magnet schools. This past school year, 16 students attended Interdistrict magnet schools. This number has remained consistent over the last several years.

One of the more exciting new programs in the district is our Advanced Manufacturing program. The New Hartford Public Schools partnered with Goodwin University. This innovative program will begin its fourth year. The program expanded to our 5th grade as well. We now have our 5th and 6th graders working with the district's Media Specialist and a Professor from Goodwin University to deliver this exciting STEAM based program. This partnership will culminate with a celebration at Goodwin University in the spring again that will bring our students together with students from across various ethnic and socio-economic backgrounds.

The district continues to plan activities that highlight the rich diversity in our state. The intermediate school will continue its time honored tradition of visiting the region's Native American Museum to study the numerous contributions of Native Americans to the State of Connecticut. The district will continue to plan educational activities that revolve around individuals from diverse backgrounds. Also, the district will continue to review our content area curricula to ensure an eclectic selection of reading materials are available for students.

The district invested in a Chromebook for every student and ensured that every student had access to the internet. The district utilized Google Classroom for students who were chronically absent to ensure an equitable education for every child.

The district successfully partnered with a new Food Service provider to deliver free breakfast and lunch to all of our students for the entire school year. This federal initiative ensured that every student did not suffer from food insecurity and was prepared to learn on a consistent basis.

Equitable Allocation of Resources among District Schools

The New Hartford Public Schools work diligently to ensure that every student need is met. The district's administrative team meet regularly to develop a responsible budget that equitably devotes resources to every school. The district's 5 year Strategic Plan and School Improvement Plans highlight the priorities of the district. Each school has instituted a School Improvement Committee that identifies resources that are allocated in an equitable manner.

The district utilized a "Needs Assessment" this past year to identify the needs of the district. This tool provided useful data to support how resources are allocated.

The district continued to invest in academic programs that meet the needs of every learner. New literacy and math programs allowed for differentiated instruction to occur throughout the district.

The New Hartford Public Schools will continue to invest in technology based learning opportunities for every student. The district planned a "Math Night" to help inform all of our stakeholders on the different learning models that are now accessible for all of our families.

The administrative staff also worked cohesively with the district's PTO.
