Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Students with Disabilities ³	59	15.1	16.3

NOTE: To protect student privacy, gender counts are suppressed (*) when fewer than 6 students enrolled in the district identify as non-binary.

² This table represents students in grades PK-12 reported by the district in the Public School Information System (i.e., PSIS Reporting District).

³ Students in this category are students with an individualized education program (IEP) only. This category does not include students with Section 504 plans or services plans.

Chronic Absenteeism and Suspension/Expulsion

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: Fewer than 6

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

READING	NAEP 2019		NAEP 2013
	Grade 4	Grade 8	Grade 12
Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Gap Indicators	Non-High Needs Rate ¹	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev ²	Is Gap an Outlier? ²
Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

Most communication was shared through electronic documents found on our website through our weekly on-line "Wednesday Folder," school and community announcements and events were communicated. Likewise parents could access all levels of district, school and grade level information via the Salem School website. The school principal published weekly parent newsletters, whereby curricular, sports and classroom highlights were shared. We have a parent portal for better communication with parents.

We have also added a Salem School Facebook and Instagram that allows us Social media venues to share information with parents and families. On our social media pages, we share highlights in the classroom and school. Our social media pages made this easier to share with our community.

The school administration has weekly meetings with our Wellness team which includes our school psychologist, school counselor, school nurse and social worker. This team meets weekly to discuss any student in crisis or who has struggled socially and/or emotionally in any given week, and our steps that we have or will take to support these students.

This is our third school year we have shared "Choose Love" a social and emotional curriculum with our students. The Choose Love Formula teaches the foundational concepts and skills of social and emotional learning (SEL). Scarlett Lewis founded the Jesse Lewis Choose Love Movement after losing her son, Jesse at Sandy Hook Elementary School. Her goal for the Choose Love Enrichment Program™ is to provide children and adults with the knowledge, attitude, and skills they need to choose love in any situation.

Our teachers and support staff have implemented this curriculum with our students in grades Pre-K through 8th grade. The program helps students and educators understand and manage their emotions. The curriculum focuses on the four core areas of courage, gratitude, forgiveness, and compassion in action. The program helps students show empathy and compassion for others and maintain positive relationships.

The school uses Google Apps for Education, which allows better communication between the students and teachers. This has been very useful during our distance learning this past spring. Google classroom makes it possible for students to communicate with their teachers and classmates 24/7. This has made collaborative work much accessible, a necessary 21st century skill.

We opened the school year with the opportunity for full in-person learning, with the option of remote learning for the families that chose that option. We chose to do whole school remote learning through Thanksgiving and December holidays. We used Zoom to maintain contact with all of our students during remote learning, and to have small or individual meetings to provide services for our special education and students who need intervention services.

Efforts to Reduce Racial, Ethnic and Economic Isolation

We formed a committee to address equity and anti-racism. The committee focused on providing anti-racist teaching in our curriculum, and provided resources, activities, and support for our students. Salem School's civic lessons in our social studies curriculum expose students to social responsibilities and promote acceptance of diversity. Students participated in various cultural assemblies throughout the school year, which occurred virtually and outside of school building as we set up various educational sites on our school grounds.

During Computer Science Education week, every grade level participated in different types of coding challenges using platforms such as the Hour of Code, Code.org, or other coding games. The fifth and sixth graders continued their programming in Scratch, a free visual programming language developed at the MIT Media Lab. Students were challenged to create a specific interactive program using their own creativity and project design skills. The seventh and eighth graders were introduced to our new robots! The Edison robot is an engaging tool for teaching kids computational thinking and computer programming in a hands-on way. It can be encoded with a variety of programming languages. The seventh and eighth graders started with the graphical icon-based Edblocks to get to know the machine. The eighth graders will progress to using the text based Python.

Our school positive behavior team met regularly to support our core values of "Respect, Responsibility, Safety, and Honesty".

Equitable Allocation of Resources among District Schools

Typically since we only have one school in our district we do not report out on this narrative, but we do want to mention that during our remote learning this school year we provided devices for any student and family that needed iPads or Chromebooks to ensure the same quality lessons for all of our students.
