Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Stratford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Stratford Public Schools aims to create a learning environment in which all students feel welcome and achieve success. During the 2021-22 school year, the school district followed CDC and local health department guidance in the creation of a school re-opening plan, implementing modifications where needed in response to COVID developments. This school year district focus was multi-faceted. As a community, family access to basic needs through the coordination of regular food distribution and health services was a high priority. At the same time, school-based attention was focused on social emotional needs and supporting student access to grade-level content. Grant funds were identified to provide mental health personnel and supplemental academic supports including in-school and after-school tutoring at all grade levels as well as virtual tutoring for elementary students unable to attend school in-person because of COVID. Resources were used to continue the support of students and families in accessing online learning as well as academic supports for students during and after the school day. Student and family engagement concerns were addressed through the use of grant funding to continue outreach teams for grades K-12 in an effort to reduce chronic absenteeism and connect families with resources. Summer programs were offered at no cost for academic and social emotional support and to re-engage students with teachers, peers and academic programming and community resources. These programs were well-attended.

Typically, most Stratford's special education students are educated in their home schools according to the principles of least restrictive environment following goals and objectives aligned to standards-based curricula. The pandemic created a challenge requiring the close coordination and collaboration of district and community resources. Additional personnel were hired to assist in addressing this challenge. Special education personnel continue to work with core academic areas through co-teaching and collaborative initiatives (SRBI) and continuous improvement of district programs. SPS also provides professional development opportunities for both general and special education staff to be trained together in areas of behavior management and strategies for working with students with specific disabilities.

Stratford Public Schools engaged in a revision of the district strategic operating plan led by an outside consultant and involving representative district and community stakeholders. The work of this committee will guide district focus for the next 3 years through the lens of the Portrait of a Graduate with an emphasis on SEL, student success plans, high quality instruction, strengthening community partnerships, and staff diversification. The SOP work was preceded by an exercise in identifying the district strengths and challenges resulting in data and input provided by multiple stakeholder focus groups. These exercises speak directly to the construction of effective improvement plans at the district and school levels moving forward.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Stratford continues to become more racially, ethnically and economically diverse. SPS students are 70% students of color and 8% multilingual. Most students attend neighborhood schools, although in adherence to mandated racially- balanced figures, some students are transported to other schools within the district. Schools partner with local community agencies and institutions in a town-wide effort to affirm and support Stratford's rich cultural, religious, and ethnic diversity. Examples of efforts to reduce racial, ethnic and economic isolation involving the community include: the appointment of a Supervisor of Diversity, Equity, Inclusion, and Engagement to oversee district policies and practices with respect to resources, talent acquisition, professional learning for staff, and opportunities for students; updating communication resources; engaging Stratford Citizens Addressing Racial Equity (C.A.R.E.); the second Day of Hope and Healing; and the continued development of SPS Portrait of a Graduate with a communication plan to increase awareness of this vision and impact on teaching and learning. SPS is represented on the Youth and Family Advisory Board, the local council for positive youth development, School Readiness Council, and Community Health and Wellness subcommittee of the Juvenile Justice Review Board. Stratford staff and students participate in school-based programs to improve school climate, including Welcoming Schools, RULER, Restorative Practices, Responsive Classroom, Yale's Model United Nations program, career development and multicultural programs. Two new high school courses were developed and offered to students: Conversations on Race and African American/Black and Puerto Rican/Latino Course of Studies. The TEACH CT and CES programs improve efforts to recruit, hire, and retain minority personnel. The SPS CTE Teacher & Training Pathway now includes a secondary education focus. Grant funding was secured to support students and families in accessing online learning and district priorities adjusted to maximize resources. A Dual Language program completed its 5th year; CLR PD continues as well as book studies and review of current district curriculum and policies through an equity lens with an emphasis on reducing racial, ethnic, and social isolation.

Equitable Allocation of Resources among District Schools

Budget allocations for the Stratford Public Schools are submitted by individual schools and departments and are reviewed by central office staff to ensure equity between schools and among levels and alignment with the Board of Education's District Goals and the District and School Improvement Plans. The central office staff, including the Superintendent and the Chief Operating Officer, prepare a final budget (after discussion with building principals and district coordinators) that is submitted to the Board of Education for review and approval. Allocation of resources is determined by individual needs of the schools, as justified in the zero-based budget submissions. Capital improvement and equipment needs are reviewed through the use of the Plant/Planning Committee and adoption of a five (5) year capital improvement and equipment plan (CIP/CEP). The CIP/CEP is presented to town officials for incorporation into budgetary deliberations through a liaison committee between the Town Council and the Board of Education. Data are reviewed annually to ensure each school has an equitable distribution of fundamental resources to achieve the district's goals.
