Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The 2021-2022 school year saw the return to in person learning for all students while continuing to address the challenges related to the COVID-19 pandemic. Students and staff were required to isolate when testing positive for the virus and remote learning was made available to those students. Most activities and events including Parent-Teacher conferences, Back to School nights, Kindergarten registration, PTO activities, field trips, and other events remained virtual until spring 2022. Regular communications at the classroom, school and district levels kept parents informed about their child, their school and the community. Schools focused on the social and emotional well being of students and staff as the impacts from COVID-19 continued to affect their school community. Additional support staff was hired to support our students, a new workshop on trauma informed practices was attended by faculty, and the Choose Love initiative promoted positive, safe and supportive learning environments.

Parent input was encouraged via surveys and ThoughtExchange on issues including the spending of ESSER relief funds, COVID vaccine and testing participation, and the characteristics and qualities desired of our new principals at Adams Middle School and Calvin Leete Elementary schools. The annual school climate survey administered to students in grades 3-12, faculty and staff, and parents helped to inform instruction and guide school climate committees on areas to focus on for school improvement.

Guilford maintained its partnerships with the Institute for Learning (IFL) at the University of Pittsburgh, the Connecticut Center for School Change, the Center for Assessment, LEARN, and Insight Education. Much of this work was facilitated through professional learning communities supporting teacher collaboration, focused on rigorous instruction and engagement with instructional coaches. Schools focused on high-leverage practices across the instructional spectrum including district initiatives, school goals, professional development, instruction and formative and summative assessments.

This spring saw the return of in person concerts, STEAM and science fairs, plays, award ceremonies, stepping up ceremonies and high school graduation on the Guilford Green. Mentors returned to our schools to meet with their students and parent-guardian volunteers were welcomed back to assist with end-of-year activities. Board of Education meetings returned to in person meetings while maintaining a livestream for regular monthly meetings for more community members to view.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Guilford Public Schools remains committed to addressing the culture, climate, and instructional practices in our schools to foster an environment of equity and social justice. Dr. Rydell Harrison was named the district's Family Equity Liaison to advocate for individuals (students, parents, guardians) who feel they have been treated unfairly or inequitably within our schools due to an identity or affiliation to race, ethnicity, gender, gender identity, sexuality or religion. The district continues its work with Dr. Donald Siler from the University of Saint Joseph. In January 2022, Dr. Siler submitted his report, "School Culture and Pedagogy in Guilford Public Schools," to support Guilford's efforts to better meet the needs of all students, to explore and better understand students' experiences in the district and to examine the role of school environment, curriculum and pedagogy in those experiences.

Exchange programs, inter-district programs, and interscholastic competitions and clubs provide high school students opportunities to interact with students of varying backgrounds and increase cultural awareness. 14 students attended the Educational Center for the Arts in a diverse setting unlike the demographics of Guilford. The ABC program sponsored six minority students from New York who are spending their high school experience at Guilford High School. The Gender Sexualities Alliance meets regularly to support students with different sexual orientations or gender identities. Plans have begun for a student-centered No Place for Hate campaign at Guilford High School and Adam Middle School.

Through our PTO's, Anti-Bias, Anti-Racist (ABAR) Alliances foster a collaborative partnership of educators and parents to work to further inclusion, equity and tolerance in our schools and the community at large. ABAR provides suggested reading lists for students that highlight acceptance of others and themselves by showcasing stories featuring a diverse range of characters overcoming hardship or bias.

In our middle and high schools, the "Spread the Word to End the Word" campaign teaches students to respect differences in others. Students at all levels participate in food drives, collections of personal items, and other necessities for those in need.

Equitable Allocation of Resources among District Schools

Resource allocation and budget development begins at the building and program levels with input from teachers, principals, program directors, and central office administrators. Annually, school administrators meet with the Board of Education to share budget priorities for instruction, building maintenance, and other resources to support school goals. The Superintendent, the Assistant Superintendent for Curriculum, the Assistant Superintendent for Operations, and the Business Manager review building level requests, focusing on the needs of the school and the need to provide equitable resources across the district. Most expenditures are based on enrollment, age and condition of equipment, identified needs, and multi-year purchasing plans. Facility renovations and site improvements are driven by a multi-year plan, code compliance, enrollment, and the need to provide comparable facilities at all schools. The budget process is reviewed at all levels: school, district, Board of Education, and community. ESSER funds are being used to support social and emotional wellness, health and safety, accelerated learning, digital tools, and initiatives to support our Special Education population.
