Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

Improving SPED Programs: - Added an Executive Assistant Director/Special Education Director to work collaboratively with the Director of Student Supports to oversee the special education department and provide ongoing professional development on best practices of special educators. - Created a process of working with sending districts to ensure a collaborative process between school and home. - SPED team reviewed every IEP to ensure compliance. - Addition of specialized reading program to address dyslexia and other reading disabilities and is in the process of training a reading specialist in the area of multi-modality reading programs. Professional development will be provided to the special education department in the new IEP format and the development of aligned IEP's.

ISAAC's SRBI Team continues to use qualitative and quantitative data to identify students requiring additional academic, behavioral, and/or social-emotional supports. Members of the team meet weekly to review students of concern and to provide tiered interventions.

To prevent truancy, the team analyzes student absences daily and facilitates communication between the team and families to immediately intervene when students begin to accumulate absences. If students' absences become a concern, the team takes a multi-pronged approach that includes intervention components such as phone calls, emails, and home visits.

Communication is key in the enhancement and promotion of a positive culture and climate that exists among the school, families, and the community. ISAAC has taken numerous steps to engage families in student learning as evidenced by the creation of a Spanish speaking PTO meeting as well as an English speaking PTO meeting. In addition to encouraging our families to join our PTO meetings, specific action steps have been outlined in our Strategic Action Plan continues to include: - Communicating important highlights and upcoming events to our students, parents, and the community through weekly emailed newsletters and text messages and by utilizing Facebook, and Instagram accounts. We have also redesigned our website to make it more family oriented and user friendly.

We have provided resources and guidance to parents on various topics such as: accessing PowerSchool, checking Google classroom, and wellness activities for parents and students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

-ISAAC assigned a high school liaison to work with 8th grade students and their families in gathering necessary data and applying to high schools of choice. We also held an annual High School Fair that invited many area high schools to present to our 8th grade students and to expose them to a variety of choices within the area.

- Other experiences or activities designed to increase student awareness of the diversity of individuals and cultures include school projects and guest speakers. For the 21-22 SY, ISAAC's dance classes performed a variety of dances that students choreographed demonstrating dances of their culture. The bilingual department also sends out a bilingual newsletter for all of the families whose students are enrolled in the bilingual program to highlight what students are learning in Language Academy. In November, we also hosted a bilingual parent night describing how the Bilingual Program works, including Language Academy, Push-In Model, LAS Links testing, how to use PowerSchool, and how the curriculum supports language and academic needs. We also celebrated Hispanic Heritage Month where students were highlighted on the morning announcements sharing their projects.

- Students at ISAAC participated in many programs within the arts that introduced them to actors, directors, artists, and screenplay writers. ISAAC has formed relationships with The Goodspeed Opera House through the Virtual Arts in Education Collaboration (AEC) program. This provides students with a high-quality and innovative experience both in-school and on-campus. More recently ISAAC students have had their experience via Zoom due to Covid restrictions. Students also participated in submitting their plays to Eugene O'Neil Theater's Young Playwrights Festival where 5 students were chosen to be guest playwrights. The art students were part of the Public Art for Racial Justice Education (PARJE) Project. Students met with and help to contribute to a mural painted by the project's artist and spent the afternoon asking questions and adding to the mural.

Equitable Allocation of Resources among District Schools

Budget planning includes a review of the use of resources supported by all funding sources. Educational dollars are spent based on tracking resources used for professional development; analyzing student performance data and student needs; tracking resource use at the school and by the overall educational strategy. Our goal is to align costs with school goals.

Our process is as follows: - Teacher Leaders and Administrators analyze student data to become knowledgeable about the status of student performance and the nature of the achievement gap.

- School Leaders review evidence on high quality instruction and effective curriculum and make decisions on new, more rigorous, research-based instructional programs and curriculum.
- School Leaders map out a plan to invest in professional development and teacher training.
- Data analysis on student achievement and charting out ways to provide extra help and interventions for struggling students and offering smaller class sizes.
- Allocation of time, using time more productively to address student needs and offering smaller class sizes.
- Creation of mathematics and reading intervention programs and Bilingual program.
