Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

South Windsor Public Schools is fortunate to partner with committed parents, a dedicated board of education and a supportive community. The continued support of our community members as well as the town's leadership has ensured that our staff is equipped with the resources it needs to deliver effective instruction and support the learning experience of the whole child.

District improvement planning includes an annual assessment of various measures that result in both district and building-based goal setting. Recent efforts include providing training and support to implement a multi-tiered student support system which builds on academic interventions with behavioral, attendance and emotional supports as well as the implementation of a district-wide SEL model. South Windsor continues to partner with Effective School Solutions to provide district-level support to students with significant mental health needs, allowing them to maximize success in the least restrictive environment.

South Windsor strives to continually improve upon parent-community outreach and communication. School websites, newsletters and weekly communications from principals offer ways in which families can support classroom learning at home. Meetings are held with parents of students transitioning into grades 6 and 9, and course planning and graduation requirements are reviewed during an information night at the high school for incoming grade 9 families. The high school also offers information sessions regarding post-secondary planning, AP and ECE credit opportunities, and financial aid for college.

South Windsor continues to value the importance of regular attendance and works to combat the effects of chronic absenteeism on student success. Each school has an attendance committee to support students and families and prevent truancy. The district regularly partners with South Windsor Youth and Family Services to provide families access to community-based child and family services.

Family participation in school activities and programs is actively encouraged. Parents are given regular opportunities to meet with school leadership during PTO meetings and other focus groups in order to provide input and share ideas. The district's Family Advisory Group for Teaching and Learning provides ongoing feedback on issues regarding curriculum materials and other school topics. The recent addition of two family engagement specialists at the middle and high school provides increased effective partnership opportunities.

Efforts to Reduce Racial, Ethnic and Economic Isolation

South Windsor Public Schools seeks to cultivate and support culturally responsive classrooms and learning communities by creating experiences that enrich and expand the depth of students' knowledge beyond today's classroom. We continue our long-standing partnership with CREC and welcome more than 100 Open Choice students and their families to South Windsor.

South Windsor focuses on building staff capacity around cultural competence and developing culturally sustainable practices. All staff receive training around issues related to diversity, equity and inclusion. A district-level equity council works collaboratively with building-based equity teams to create inclusive environments for all staff, students and families.

South Windsor Public Schools continues to expand efforts to recruit and retain a racially, ethnically and linguistically diverse staff. Staff undergo training to understand the impact of implicit bias in the hiring process. South Windsor administrators participate in a variety of networking/recruitment events to recruit diverse candidates. This commitment is clearly outlined in the Board of Education's 2023-2026 Strategic Plan.

Equitable Allocation of Resources among District Schools

The South Windsor Board of Education recognizes its responsibility to ensure an equitable allocation of resources among all of its schools. A systematic, multilevel budget process involving teachers, administrators, curriculum specialists and central office staff is used to build a budget that achieves this allocation. Budget meetings are held with representatives from each school and content area to identify the needs of students and staff. New staff and program requests are discussed, and recommendations are reviewed by the superintendent and central office administrators. A continuous cycle of curriculum review ensures that all content areas have up-to-date materials that reflect appropriate standards and practices. The district closely monitors enrollment figures to ensure that school staffing and resources are appropriately distributed. An annual assessment of each school facility addresses particular building and technology needs; identified needs are included in the district's budget or referred to the town's capital projects program.
