Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Stafford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Stafford Public Schools began implementation of its three-year Strategic Educational Framework (SEF) during the 2022-2023 school year. The framework identifies strategic imperatives for Organizational Health; Curriculum, Instruction and Assessment; and Continuous Learning for All. The district prioritized enhancing connections with students, families, and community members as engaged partners. All Stafford schools have active parent groups involved in supporting school programs. The district utilizes a variety of digital tools to strengthen communication with caregivers and maximize student learning such as School Messenger, Seesaw, ClassDojo, the PowerSchool parent portal, social media, and the district website. School Readiness and Family Resource Center grants support the Family Resource Center program, providing outreach opportunities to families. The Office of Curriculum and Instruction sponsors academic events during the year aimed at acquainting families with resources to support learning in the home environment. West Stafford and Stafford Elementary School continue to host an annual Math and Literacy Night, connecting families and students for an evening of joyful learning.

The district recognizes the importance of family partnerships in reducing chronic absenteeism. Schools utilize home visits in collaboration with the School Resource Officer and Related Services Staff to reduce barriers impacting school attendance. In addition to school-based attendance teams, Stafford Public Schools has a District Attendance Committee to examine data and strategies to reduce truancy and chronic absenteeism. West Stafford School initiated a pre-kindergarten attendance contract to partner with families of early childhood students. The district participated in the CSDE's "School is Better With You" campaign.

All schools support interventions both during and after the school day. The STEAM After School Program provides academic enrichment and SEL support for nearly 80 students at Stafford Elementary School. Academic tutoring is provided after school through BOOST Tutoring at West Stafford and Stafford Elementary School as well as Homework Club at Stafford Middle and Stafford High School. West Stafford School holds screening days to facilitate early identification for intervention and special education support services. This year, selected secondary students participated in High-Dosage Tutoring in mathematics during the school day supported through grant funds.

Stafford Public Schools continues to provide high quality professional learning opportunities in effective Tier 1 instructional practices, purposeful technology integration, social and emotional learning, and Science of Reading instruction for elementary educators. Our special education team continued to refine practices around IEP data collection, discrete trial instruction, and programming for students with dyslexia and other reading disabilities. The learning walk structure was expanded this year to include cross-building learning walks, supporting the vertical articulation of curriculum and instruction as well as the transition of students. The development of the district's new educator and leader evaluation plans focuses on educator growth and professional learning through an action research model.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Stafford Public Schools continues to examine practices for developing a community that embraces inclusivity and belonging for all. This year, the district's Equity and Inclusivity Coalition began an equity audit to understand where gaps to access or challenges to equity may exist. In addition, the Coalition, working with community partners, developed the Stafford Public Schools Increasing Educator Diversity Plan. The district expanded its outreach to local colleges and universities and increased its presence at career fairs. In addition, Stafford High School was awarded an EdRising Grant to inspire students to become future educators.

The district continues to implement its Student Success Plan Scope and Sequence and Comprehensive School Counseling curriculum. Stafford Middle School added an SEL class as a guaranteed experience for all Grade 6 students. The extended advisory structure at Stafford High School provides opportunities for all students to participate in college and career planning and SAT preparation. To support the transition to high school and credit attainment in Grade 9, Stafford High School has an established Freshman House program. Our elementary STEAM After School program provides scholarship opportunities, and our pre-kindergarten program offers school readiness support based on financial need.

Universal screeners are utilized across the district including STAR, mClass DIBELS, and DESSA to support student academic and social-emotional development. The Social Emotional Learning Committee implemented professional learning for all educators in building resilience and fostering positive emotions in students. Coaching was provided to educators to support instructional strategies for Multilingual Learners.

The district's classroom and school libraries, as well as the Science of Reading aligned elementary literacy program, provides students with access to text that represents multiple viewpoints. Stafford High School implemented the Black and Latino Studies course for its third consecutive school year. Special education students engage in an award-winning Unified program with their regular education peers. The Gender Sexuality Diversity Alliance (GSDA) continues to focus on teaching tolerance and inclusivity to students and staff.

Equitable Allocation of Resources among District Schools

District budget initiatives are aligned to the vision and imperatives communicated through the Strategic Educational Framework. In an effort to synthesize a fiscally responsible budget and maintain a balance among our district schools, each building receives an allocation based on enrollment and school needs. Departments develop budgets locally prior to school budget formation. Sharing of staff across school buildings is creatively utilized. A curriculum revision and textbook adoption cycle equitably allocates funds for the enhancement of curricular resources aligned to standards and mandates. The district has a full-time ESL teacher supporting student language development at all four schools. Professional learning opportunities are customized and differentiated to support the individual learning needs of educators in each school building. A representative Professional Development and Evaluation Committee (PDEC) purposefully plans ongoing, job-embedded learning opportunities based on educator feedback. Grant funds also enhance the tools and resources available during and after school to support at-risk learners.
