Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

West Haven School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The West Haven Board of Education has embraced the State Department of Education's school improvement initiatives. The research-based process to improve student achievement for all youngsters is being implemented in all schools, grades PK-12. Professional development is grounded in this research base and provides teachers with teaching strategies, data driven decision making tools, curriculum design and student assessments. Each individual school has implemented their own school improvement plan with consistency and fidelity and is reexamined on a constant basis. The West Haven Board of Education concentrates its efforts on aligning our PK-12 curriculum in the areas of language arts, mathematics, science and social studies in the Connecticut State Standards and national standards, with the goal being to increase equitable access to the content for all youngsters. The curriculum is constantly being revised and revisited. The efforts to improve student learning for all youngsters, regardless of their educational need or handicapping condition, is reflected in our curriculum which is grounded in educational and scientific research; reflects state and national Common Core Standards; differentiates instruction utilizing a variety of research-based strategies and is consistently followed across all schools and across all grade levels. SEL curriculum has also been a considerable focus when working with students. Support staff have been trained to access and address the needs of the students. After school enrichment programs on all levels supported students that needed that extra support beside what they received during in school hours. Most of the programs not only focus on the academic skills of students but, also the social and emotional skills. In the area of special education, we strive to keep our youngsters within our district and deliver the most appropriate instructional resources within the least restrictive environment. This is the case starting in Pre-K all the way up to our transitional programs. Our curriculum is designed to address the differing needs of all youngsters and is appropriate for our special education population as well. The English Language Learner population has grown substantially. Resources were purchased, which included hands on manipulatives, texts, software and other sources to support student learning. Attendance has been a focus this year with students on all levels. The district has applied standard procedures for all students. Outreach workers and Social workers are consistently in contact with families to make sure they have the means and support to get their children to school. Teachers reach out in phone calls, emails and letters to encourage the families to make sure their child is not missing school. Student truancy is addressed utilizing a variety of methods, both preventive and reactive. Parents are informed each year of the district policy regarding truancy. Handbooks are distributed online, as well as hardcopy in both English and Spanish during the first week of school. Parent communication is done district wide as well as by individual schools. Schools send mass emails, hardcopy letters and newsletters to families in English and Spanish.

Efforts to Reduce Racial, Ethnic and Economic Isolation

During the 2022-2023 year, many opportunities continue to be offered in district and at schools designed to reduce racial, ethnic, and economic isolation. Efforts to return to pre pandemic circumstances that helped support all students has been a focus this year. We continue to drive our instructional practices to support all students while continued high expectations for all. We have added additional supports in the capacities of academics and social emotional services. We continue to monitor student achievement through standardized data collected and discussed at data teams, SAT and Crisis interventions. We have addressed chronic absenteeism with standard procedures and the support of Social Workers and our Outreach team. The district continues to build on community relationships with community, academic social and recreational activities at the schools as well as with local resources. Efforts to support and engage families across economic and cultural divides have included district activities, school-based activities or projects and community based activities. Partnerships with the University of New Haven, Yale University, the Community House (after school and readiness programming), Gateway Community College continued on a smaller scale. PTA and PTO meetings are now in person. Family nights, cultural events, as well as district activities have been to come back into the schools. Conferences with families have continued to be the main means for communication. All programming is designed to involve children and families in their community schools to reduce not only racial and ethnic isolation, but equally as important, economic isolation. West Haven is committed to hiring staff in both certified and non-certified positions that reflect the diversity of our student population. This year the district has become a partner with the TRP (Teacher Residency Program), in which para-professionals have had the opportunity to work under a veteran teacher in the state program, to study to be a certified teacher. Parental notices and forms are translated in languages, as well as accessible on the district website. Emails are sent in both English and Spanish.

West Haven School District

Equitable Allocation of Resources among District Schools

The West Haven Board of Education continues to allocate funds to its schools on a per pupil basis. School administrators and central office staff work together to develop a budget that is designed to meet the needs of a particular school community and its student population. The budget process considers the needs of the buildings as they relate to programs and initiatives offered throughout the district, as well as the educational, social and emotional needs of the student population. The process is modified when necessary to make sure the everchanging needs are addressed. Each school budget is designed to ensure comparable resources are distributed across the buildings. It is the responsibility of the district-wide content area coordinators to implement major curriculum changes and related professional development in such a manner to ensure equal access of content for all youngsters in the district. West Haven is committed to following all state and federal guidelines when allocating grant funds, thus ensuring that students most in need will benefit. The WHBOE is committed to ensuring equal access to the curriculum and equitable allocation of all resources, including technology.
