Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Weston School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Every year the district sets goals with specific action steps and evidence indicators of success designed to improve continuously programs and services for general and special education students. All four schools develop action plans that align with the district goals and teachers are required to align their goals with district and school initiatives focused on improving student achievement.

The district's primary goal has been the development of global citizens through an emphasis on academic excellence, and healthy learning environments. Weston Public Schools is committed to developing a partnership with parents to ensure students' success. Grade-level back-to-school nights, transition meetings, and parent-student informational gatherings are offered throughout the year to increase effective communication. In the spring, transition programs for parents are held to provide opportunities for those interested in learning about the unique programs and curricula that will be offered in their child's new school as they progress through the four schools.

Regular and consistent communication is vital to sustaining a collaborative partnership with district families. The district utilizes a web-based parent portal to provide parents with access to their child's academic performance. This resource provides parents and students with a window into student progress serving as the basis for conversations with teachers. All teachers maintain an active web page reflecting classroom assignments and updates for students and parents. In addition to the scheduled K-5 parent-teacher conference days in the late fall and spring, school counselors are in regular contact with parents to address any issues that their child may be dealing with at home or in school.

The district uses both district and school websites to communicate important guidelines and information pertaining to school-wide events and reference materials such as handbooks, school forms, policies, curriculum, after-school programs, and calendar updates. The district communicates to families via email blasts throughout the school year. A district and school update is sent monthly to all families and posted on the district website, as well.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Weston Public Schools continue to make great strides to reduce racial, ethnic, and economic isolation through our participation in Open Choice and our steadfast commitment to community service and fundraising projects. Weston participates in the State of Connecticut's "Open Choice Program" and students from a surrounding urban area, Norwalk, attend our schools. These students are an important part of our community and participate in all aspects of the school day and after-school activities.

The district's core academic curriculum provides opportunities for students to learn about different cultures through history, music, and literature, helping them gain a greater appreciation for the importance of cultural diversity. The district has a Spanish language program that begins in Kindergarten through grade five. Secondary students may choose to study different languages including French, Latin, and Chinese through high school. Weston High School provides educational experiences and courses that enhance our students' capacity to live in a global world.

In district schools, students engage in opportunities to have a positive impact on the world outside of Weston. Student government organizations create awareness among the student body for humanitarian efforts that have resulted in a number of school-wide drives. Through first-hand exposure with those from different cultures and backgrounds, our students receive the critical life experience of understanding and appreciating the many commonalities that they share in the process.

Equitable Allocation of Resources among District Schools

Weston Public Schools is a suburban K-12 district of 2,300 students located approximately 45 miles from New York City. The campus is the heart and hub of the community with all four schools situated along a one-mile stretch of road. The district employs a participatory budget-building process to determine the needs of our schools. School leaders join district-level administrators to closely examine current practices and determine budgetary priorities. Administrators prepare and submit their budget estimates to the Director of Finance and Operations, who summarizes the data for review by the Leadership Team. This group meets to review the budget requests by individual cost centers. The administrators present their budgets in public to the Board of Education during the month of January. During its review of the administration's requested budget, the Board may or may not alter the request. After the Board votes on potential modifications to the requested budget, the budget is adopted and sent to the Town Boards for further review prior to being voted upon at a Town referendum in April.
