#### Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

## Regional School District 12

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

## Regional School District 12

### Narratives

---

#### School District Improvement Plans and Parental Outreach Activities

Region 12 works to ensure all families are engaged in the educational process in a variety of ways. First, communication is key. At the district level, a Region in Review document is shared monthly highlighting events happening in our schools and classrooms. Additionally, twice yearly, there are publications shared with the community highlighting stories of the district classroom putting the district goals into action. The Superintendent works hard to share information proactively about upcoming events and reactively as world events occur keeping families up to date on resources available to them. At the school level, principals share weekly highlights through email so families know upcoming events in our school buildings. At the classroom level, our teachers share newsletters, photos and emails to keep parents informed of classroom activities.

Second, we ensure face-to-face contact and access to tools. Parent-teacher conferences occur twice yearly to keep connections strong so families understand their student's academic and social emotional growth. The district and schools also partner with providers to offer families workshops and trainings on topics of interest. Staff also offer trainings related to supporting their student's success at home. Parents are offered access to technology so they can stay involved in their student's academic life. PowerSchool, Google Classroom and Naviance are a few of the technology tools parents can use to support their student's progress. Our PTOs are active and provide our families with information and our students with educational enrichment activities and field trips.

Next, we address challenges that our families face. Chronic absenteeism, school avoidance and truancy are a priority in Region 12. In each building, there are teams of teachers and at least one administrator who monitors student attendance. In instances of extended absences, each family is contacted and meetings are arranged to discuss circumstances of each situation. Individualized plans are created with each family to support student attendance. Additional support like regular team meetings, school counseling, referrals to outside resources, classroom supports, and a case manager to monitor and support the student are just a few of the options that could be recommended and implemented. If necessary, a referral to special education will be made and a planning and placement team (PPT) will convene to determine if there is a need for special education supports.

Finally, our Department of Pupil Personnel Services (PPS) works proactively to support our families who have students with disabilities, both special education and 504 eligible students. Staff connect with parents at the start of the school year to build a relationship that will increase the student achievement and well-being. Special education and 504 case managers will also share information with general education teachers to strategize opportunities for student success. Teams meet multiple times throughout the year to problem solve if there are challenges that are not solved with simple adjustments in programming. Additionally, as a Connecticut Agriscience Program, Region 12 works very hard to communicate and collaborate with all sending school districts to increase opportunities for a successful transition to Shepaug Valley School.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

At the elementary level, we continue to integrate learning opportunities to deepen the awareness of diversity in our world. With the use of a variety of texts, students were introduced to characters and historical figures who used their voice to make change for the greater good. Furthermore, cultures based on the ethnic diversities were celebrated in our schools, including Ecuador. Students were also enthusiastic about learning important information about Egyptian culture, history, geography, foods, and traditions specific to Egypt. Korea was also a focus country selected to highlight a staff member's heritage. Students learned the history, geography, language, architecture, honorific system, foods, the arts, and the traditions of the culture. Schools also celebrated Unity Day with many collaborative activities focused on positive relationship behaviors, and to bring the school community together in a unified message of kindness, acceptance and inclusion. To continue the theme of inclusion, The Center for Empowerment engaged students in interactive skits, teaching students how to spot mean behaviors, to know the difference between teasing and joking, sympathy and empathy, and how to solve conflicts respectfully. At the middle level, we were again visited by a holocaust survivor who delivered his two hour program on the roots of intolerance. For the first time, our high school students also saw a presentation by a gentleman whose mother escaped from the Holocaust. He used his family story to help us all understand the plight of people in exile. High school students participated in the ADL's "Names Can Hurt Us Assembly," the goal of which is to create upstanders allied against bullying and intolerance. The assembly led to a year of work around anti-bullying and climate work. This student team attended a seminar in West Hartford focused on how to lead change initiatives that counter racism and intolerance. The students worked with faculty advisors to review part of the book *Belonging*. Next, our students saw an assembly by the "Free Hugs Guy," Ken Nwadeke, focused on kindness and understanding. Link Crew is now in its second year, and our Link Leader advises all Link Crew members are returning next year and built strong relationships with freshmen.

## Regional School District 12

### **Equitable Allocation of Resources among District Schools**

Region 12 builds an annual budget offering the highest quality education to our students and families in a fiscally responsible manner. The budget process includes proposals for academic initiatives, resources, and personnel for elementary and secondary schools in order to serve learners' needs equitably. Personnel costs comprise the majority of the budget while special education needs are a priority. The superintendent and the leadership team work hard to scrutinize the budget to ensure the education of all learners remains focused on small class sizes, rigorous curriculum, security, and personalized learning. The 2024-2025 budget included a 4.26% increase to the regional towns over the prior year to maintain our academic programs and add new resources to meet the changing needs of our students. Region 12 strives to remain responsive to economic conditions while preserving the quality of our educational programs and services. We welcome non-resident students through agriscience and tuition-in opportunities, which have proven mutually beneficial as students from neighboring towns strengthen our schools through diversity that enhances and enriches our schools.
