#### Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

### Narratives

#### School District Improvement Plans and Parental Outreach Activities

During the 2023-2024 school year, Salisbury Central School continued to find ways to maintain and improve the quality of education provided for all students in a constantly changing environment that provides opportunities in all areas of teaching and learning. A priority for both special education and regular education was on data collection and tiered interventions. Teachers tracked and analyzed data using the EduClimber software platform to collect, analyze, and interpret student performance data, including Fastbridge, classroom, regional and state assessments, and cognitive assessments. Our grade level data teams met each week to review student achievement, share best practices, and modify supports as needed. Our Special Education team and Response to Intervention teams met weekly as well. Classroom teachers and special education teachers collaborated regularly on instructional strategies and needed modifications/accommodations. In order to meet the needs of all our learners, professional learning for staff remained centered on assessment, social emotional learning, and curriculum.

At Salisbury Central School, we understand that regular attendance is critical for success at school. Families are asked to inform the school of pre-planned absences so that student work can be collected ahead of time. Our absence review committee meets monthly to stay on top of this. Absences are only excused if they meet the state guidelines. Families receive a letter if absences grow beyond what is allowed. Meetings are held with administration, nurse, guidance counselor, and teacher(s) to help support families that have high numbers of absences or tardies. This year, attendance rates increased 0.7% from the 2022-2023 school year.

Salisbury Central School values our relationship with families and community members. Teachers are in constant communication with families regarding student progress in the classroom. They send weekly newsletters and updates, post information online on SeeSaw, and use email and other media to communicate with families. SCS houses all information on the school website and social media pages. We were happy to hold in-person student involvement and student-led conferences twice this year. The school principal and assistant principal were available to conference with families as well.

SCS continues to find new ways to support students working at home on learning activities. Teachers post resources on classroom webpages, Seesaw, and Google Classroom that include learning interactives and activities that students can engage in with their families. Teachers send home formative work to strengthen skills while at home. This aspect of home-school collaboration had an overall significant positive impact on student success.

For 2023-24, we continued to focus on the positive impact of independent reading. Once again, the school joined with the local library and enrichment program to provide a summer reading program for K-8 families, the theme of which was "One Author, One Region." This program involved an in-depth study of the author Kate Messner. Books were provided for all students and staff. Our English Language Arts professional learning committee organized the annual week-long "Read Across America" literacy celebration. We continued to integrate STEAM activities throughout the school day; this was facilitated with the addi

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

Salisbury Central School is located in a rural corner of Northwest Connecticut. As a result, it is critical for our staff to expose students to people, places, and cultures within our country and around the world. We continued to focus one of our strategic plan goals on diversity, equity, and inclusion. We also dedicated a portion of all professional learning days to this work. The Social Studies and ELA curriculums continued to recognize and celebrate diverse cultures, and current events from around the world are a frequent source of class discussion in all grades. SCS often partners with students from the local private schools (both have students from all over the world) to share experiences, most exciting of which was The Troutbeck Symposium, a student-led effort to rediscover our local history through student-led historical research and student-created documentaries, art exhibitions and conversation. Our Spanish program begins in Grade 1; over the course of the year, students participated in project-based learning that provided opportunities to collaborate with students living in Peru, Mexico, the Canary Islands, and Colombia. We were happy to be able to participate in many field trips this year including Howe Caverns, CT Science Center, Sharon Audubon, the Sharon Playhouse, Warner Theater, and more. 6th graders spent five days and four nights at Nature's Classroom. Grade 8 students did a four day, three night trip to our nation's capital, Washington, D.C.

The school's EL population includes students who speak a variety of languages. These students share experiences from their homelands with the rest of the student population.

## Salisbury School District

### **Equitable Allocation of Resources among District Schools**

Salisbury Central School is a one-school district that is generously supported by the town of Salisbury. The school population remains around 300 students and staffing is consistent with the needs of providing high quality teaching and learning to all. Funds are sufficient for textbooks, supplies, field trips, technology, and student activities. The town has supported investments to allow for needed improvements to both buildings and to ensure the safety, maintenance, and beautification of the entire school campus. Throughout the year, the town ensured that funds could be utilized to maintain quality instruction and meet all health and safety guidelines.
