Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

The SPSS provides our students and staff with a diversified educational experience. We provide developmental guidance lessons that are conducted in all classrooms by school counselors to address bias and to create a safe environment for learning. Lessons focus on tolerance, diversity awareness, community building, and bullying prevention. By experiencing these scenarios in a non-threatening way, students can internalize perspectives and realities different from their own. The CT model African American/Black and Puerto Rican/Latino Course of Studies for students is offered to high school students.

Shelton's Mentoring Program pairs at-risk students with strong role models from business and industry from the greater Shelton community. Mentors make a concerted effort to remain with their mentees until they graduate from our system creating a far reaching bond in and among participants. On all grade levels students are heterogeneously grouped, inclusive of all ability levels, races, genders, special needs, and English language learners. We also partner with organizations such as the Valley NAACP and the Anti-Defamation League to provide staff with necessary professional learning to properly address and instruct our growing diverse student population.

SPSS is committed to reducing racial, ethnic, and economic isolation by continuously enhancing our teachers' skills to effectively engage with a diverse student body. Our initiatives include fostering strong teacher-student relationships, utilizing engagement strategies, implementing differentiated instruction, providing targeted interventions, and incorporating social and emotional learning.

For families where English is not the primary language, we have taken steps to ensure effective communication. Our school and district web pages are translatable into over 100 languages, greatly improving our outreach. Additionally, upon request we have provided translators at parent meetings to facilitate verbal communication with non-English-speaking families.

At the high school level, student-led organizations such as the Black Student Union, Multicultural Ambassadors, and Student Ambassadors offer students a platform to voice their perspectives and actively participate in promoting race, equity, and social justice.

Equitable Allocation of Resources among District Schools

SBOE policy guarantees a base level of materials & financial resources to each school contingent on needs. The needs of all students, age of school facilities, grant monies, NEASC reports, and environmental tests results serve to further allocate funds. State and federal legislation such as LRE, indoor air quality, green cleaning, and compliance reviews are considered. Shelton's long-range objectives continue to be updated to suit the district's instructional goals, tech needs, and facility infrastructure.

Meetings with PTOs ensure the greater school community has input into the budget making process. Safety, security, facility improvement, and air quality are continually addressed. All SPSS's facility improvements and projects are supported by the district's equitable allocation of resources. Professional Learning of certified staff is directly aligned to the DIP, Individual SIPs, curriculum initiatives-revisions, and student achievement. New initiatives, supplies, equipment, and programs are funded equitably based on student-faculty-staff-building needs. The SBOE budget is posted on the website after the process is finalized.
