Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Exiting from remote and hybrid instruction to full in-person instruction required both a return to and evolution of our parent partnerships for the 2021-22 school year. From September-February, in-person PTO Principal's Coffees offered parents information about general school topics and trends. From March-June, the coffee topics turned to transition activities, bringing in key personnel from the sending and receiving buildings. Parents from across the tri-district were invited to a screening and discussion of Screenagers. Additionally, parents took on many roles this year from guest teachers and speakers to mystery readers and members of our school climate committees.

School improvement efforts took many forms, but the acceleration of learning and transfer of knowledge/skills took center stage. The Helen Keller Middle School (HKMS) staff recognizes the importance of school climate and data-informed practices and strives to have all community members feel connected and supported. They have developed a robust data teaming model that includes regular collaboration by staff to review data and develop individualized support plans for students. This year HKMS extended its work in the realms of improving student voice and choice, emotional safety, and the active inclusion of all students through their work with MARC, and the Center for School Climate. All certified staff and students have been trained in Restorative Practices. Teachers maintain regular contact with parents via the PowerSchool parent portal, parent conferences, and email. Interdisciplinary teams meet daily to increase communication around the issues of curriculum and students. Parent meetings are held with the child's team of teachers to discuss strategies for improving their child's learning. There are multiple opportunities for parent involvement in our school through our PTO. Our community relationship is further enhanced as we work in collaboration with outside community organizations to promote student involvement in community services such as a pen pal program with senior citizens, and a month-long fundraiser utilizing student projects to raise over \$8K for Mikey's Way!

The Samuel Staples staff values our partnership with parents as essential to best support our students' learning and growth. This year, we were able to welcome parents back into the school to volunteer as story readers in the classrooms, shelf elves in the Library Media Center, and for special events such as field day. We are committed to continuous improvement, and are consistently engaged in reviewing student and school data, both academic and social-emotional, to inform our decisions regarding curriculum, resources, and the school climate.

Systematic and traditional efforts to reduce truancy were hampered this year due to the relaxed status of the truancy regulations due to COVID. That being said, attendance remained at or above rates prior to the pandemic, due to the outreach efforts of teachers, school counselors, and administration.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Respecting cultural, racial, and economic differences remains an ongoing priority for our school. The SSES Student Diversity Club plans school-wide projects that celebrate differences, and the SSES Kindness Club is engaged in activities designed to make Samuel Staples a safe and welcoming place for everyone. We gave scholarships to low-income families, and we funded field trips, class t-shirts, and yearbook purchases for some students. As well, we continued to enjoy our partnership with Open Choice. We had 12 students enrolled from neighboring Bridgeport.

At Helen Keller Middle School we participated in Open Choice, a cooperative program designed to reduce racial, ethnic, and economic isolation. Students from urban environments enroll as full-time students and complete elementary and middle school in Easton. Community service is a vital component of demonstrating the power of kindness. In December, students collect food which they delivered to local food pantries. Additional leadership opportunities are offered through our school climate committee and peer leadership team, which are compiled of diverse students and staff members and address issues of diversity, equity, and inclusion. The HKMS family newsletter regularly features "diversity discussions" which engage parents and students in "kitchen table" conversations that are both eminent in the community and emergent at the school.

The ER9 boards adopted an Equity & Inclusion statement, and school climate committees scoured school climate data to identify actionable projects. Additionally, the district had partnered with the Triangle Center to help educate, address, and intervene regarding issues related to the LGBTQ+ community.

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning, and community involvement.

All teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed. publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that. ensures full participation by members of the staff and full transparency to the community. The proposed budget for the 2022-23 school year was published on a publicly viable and explorable Google Sheet so community members could explore all the details of the budget right down to the P.O. orders submitted by staff.
