Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

West Haven Board of Education continues its work in accordance with the State Department of Education's School improvement plan. Procedures and practices are in place to ensure that all students have access and the supports needed to achieve and be successful in learning. Research-based strategies are in place in all schools, grades PreK to 12 to improve student achievement. The district offers professional development to all staff that is research-based and reflective of the essential needs of the student population. The district improvement plan has a strong emphasis on collaboration, using data-driven decision-making tools, curriculum design that is continually updated, ongoing student assessment and monitoring, as well as a variety of resources. Each of the schools in the district reflects the District Improvement Plan, but also customizes it to meet the needs of the learners they support.

Curriculum on all levels, PreK to Grade 12, in the areas of language arts, mathematics, science and social studies are aligned and based on the Connecticut State Standards and national standards. The curriculum is grounded in scientifically based strategies that address the differing needs of all students, including our special education population as well as the English Language Learners. To that end, we provide ongoing training for new and tenured teachers that focus on the continued development of their expertise in work to address all students' needs. Curriculum is displayed on the district's website so parents can view and be informed. With the state's initiative on the "Foundations of Reading", staff has been trained accordingly. The district has invested in a program to focus on the academic skills needed to master reading. We continue to invest in resources that include technology in the classroom, hands-on manipulatives, texts and a variety of software.

The district continues to focus on students' social and emotional skills through classroom programs, as well as district activities and resources. Our special education programs focus on keeping our students in the least restrictive environment while providing all the supports they need to be successful.

Truancy is addressed in a variety of methods, both to prevent absences, as well as addressing them. Parents are informed at the beginning of the year of the district policy and the effects it has on learners, starting with our youngest population. Handbooks are posted on both the district and school website. Personal phone calls are made by school staff which include the social worker and classroom teacher to communicate the importance of attending school, along with emails and letters. The school outreach workers make home visits to families to give supports as needed.

Parent communication is done via email, newsletters, or apps, in both English and Spanish. Families have access to Power School to not only monitor their child's attendance but also view the academic progress their child is making.

We are proud of our efforts to continue to engage families in their child's learning by the school-based community. Our firm belief is that all students can achieve and be successful. We continue to have high expectations for all West Haven students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The 2023-2024 school year West Haven District has continued to work towards reducing racial, ethnic and economic isolation for all students in our community. We are committed to making sure all students continue to receive the curricula and instructional support to help them excel in school. Some of the components in place are the use of data teams, SAT, Crisis interventions, attendance committees and collaborative meetings to discuss student work as well as their emotional wellbeing. We have continued to use our Outreach team to meet with families on an individual basis and work on building a relationship with the schools and staff.

The district has maintained and continues to build upon our community relationships, which include after-school activities, clubs, enrichment programs that build teamwork and trust as well as recreational activities. We have partnerships with the local universities, such as University of New Haven, Yale University, Gateway Community College and Southern Connecticut State College. We work with the Community House for school readiness programs, as well as the before and after-school programs. All programming is designed to involve children and families in their community schools to reduce not only racial and ethnic isolation, but equally as important economic isolation.

The schools in the district hold family nights, for literacy, numeracy as well as college and career opportunities. Conferences, PPT's, 504 meetings, newsletters and email communication are generated with Spanish and other translations as well as information on the district website. The district has partnered with TRP (Teacher Residency Program) to train culturally diverse staff to become teachers in the district. Additional staff has been hired to support and meet the needs of the increase in the English Language Learner population in the district.

Equitable Allocation of Resources among District Schools

West Haven Board of Education allocation of funds to its schools on a per pupil basis. The District Coordinators, School administrators and Central Office Staff develop the yearly budget to reflect the needs of our changing school population and community. The budget process considers the individual needs of the buildings in relationship to programs and initiatives, as well as the educational, social and emotional needs of the student population. Each school budget is designed to ensure comparable resources are distributed across the buildings. This includes staff, resources, technology, and special materials needed for individual programs and student population. The district-wide content area coordinators are up to date on implementation of any curriculum changes, related professional development, or state initiatives, to ensure equal access of content for all children in the district. West Haven is committed to following all state and federal guidelines when allocating grant funds, ensuring that students in need will benefit. The West Haven Board of Education is committed to ensuring equal access to the curriculum and equitable allocation of all resources, including technology.
