Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Our school community engaged in a multi-year collaborative process to design our current mission and vision statements, and to develop a Vision of a Learner. The mission of the Wilton Public Schools (WPS) is to inspire and prepare all students to contribute meaningfully to a globally interdependent society. We envision our students actively pursuing their goals and aspirations and growing to be productive and resourceful members of the community, guided by expert instruction and a rigorous, learner-centered curriculum. Wilton Public Schools' Vision of a Learner represents our vision for the 21st century skills, traits, and attributes that our students need to succeed in college, career, and life. The WPS Continuous Improvement Plan represents our commitment to our students and school community through a focus on student-centered teaching and learning. Building and district leadership teams develop and implement action plans that align with the District Continuous Improvement Plan. These teams meet throughout the year to evaluate progress, and a results-driven approach is used to identify both quantitative and qualitative results that are reported annually to the Board of Education. School-based teams continuously monitor student attendance and intervene immediately to prevent and address truancy issues. Active parent involvement in learning is supported in a variety of ways including: partnership events with the PTAs; learning celebrations that showcase activities, class displays, and samples of student work; and parent participation on special committees (e.g., Technology Advisory Committee, Curriculum Review Committees, Nutrition Committee, etc.). In the area of special education, we continue to provide services to students eligible under IDEIA through a continuum of district supports and services. The goal is to ensure the provision of all mandated services in a manner that is compliant with state and federal regulations, best practices, and current research. Students are educated with their non-disabled peers in the general education classroom to the maximum extent as considered appropriate for each individual student. Students' instructional environments may include general education (with or without paraprofessional support), services delivered in the general education setting, special education classes, in-district special programs, or other appropriate placements. At the preschool level, young children are served in integrated preschool classrooms and through itinerant support services. In addition to special education services, the district also provides related services to students with disabilities. These services may include speech therapy, occupational and physical therapies, applied behavioral analysis/ behavioral consultation, counseling, transportation, the use of specialized equipment, mental health team supports, and life planning sessions. Assistive technology services are provided by appropriately credentialed district staff. The goal is to support increased student interaction within social, instructional, and community environments. At the high school, transition services are provided to assist students and their families in planning for post-secondary options including additional education and/or employment.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The WPS view the diversity of our student body, our staff, and our community as a strength and recognizes that differences are an essential part of our history and current and future reality. The district believes that educational equity benefits all students and our entire community, and that recognizing perspectives beyond one's own is a critical thinking skill that can result in greater open-mindedness, increased empathy, reduced stereotyping, and deeper learning and growth. In light of these values and beliefs, the district has adopted policies to ensure the school environment and curricula promotes belonging and reflects the principles of respect, dignity, and equal opportunity for all. Teaching and learning promote mutual respect, civility, diversity of thought and ideas, and positive communication in the classroom and community. The WPS further strives to reduce racial, ethnic, and economic isolation through participation in the Open Choice program, which affords students living in urban areas the opportunity to attend school in participating suburban school districts. All of the district's work to reduce racial, ethnic, and economic isolation is led by building-level Diversity, Equity and Inclusion committees. School-wide behavioral programs seek to enhance student skills in the awareness and understanding of differences. The social studies curriculum provides opportunities to help students develop understanding of cultural diversity and the history of various regions, and interdisciplinary team projects focus on increasing cultural and socio-political understanding. Service projects support local, national, and international communities. Programs in the fine and performing arts promote understanding of cultural diversity, including a world language week, participation in an annual International Art Exchange, and national touring exhibitions such as Darshana: A Glimpse into the Hindu Civilization. Our secondary schools have diversity-related co-curricular clubs and host a number of international exchange students, and Wilton High School has participated in the "A Better Chance" program, which provides inner-city students with the opportunity to live and attend school in Wilton.

Equitable Allocation of Resources among District Schools

The WPS develop and implement a budget that provides sufficient and appropriate resources across schools, promotes continuous improvement, affords sufficient flexibility to respond to changing needs, complies with all Federal and State Mandates, and provides for necessary maintenance and improvement of school facilities. The WPS ensure equitable allocation of resources through appropriate organizational structures that are responsive to the academic, social, and emotional needs of students. The budget seeks to maintain district practices concerning class sizes, while adjusting staffing patterns to reflect enrollment changes and to achieve cost savings. The number of certified and classified staff is allocated based on school enrollment, policy regarding class size, and school and district program priorities. Special education staffing is allocated based on specific student needs defined through the IEP process, the number of students served, and compliance with IDEIA. The budget also provides equitable allocation of technology resources to provide the infrastructure and training that ensures that all students and staff excel in an increasingly technology-based global community.
