Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Woodstock Public Schools has taken great strides in school communication with families. The use of the website, text communications, the online portal system for students and parents to view grades, emails, parent communication forms, Positive Office Referrals, are all ways that have enhanced communication between home and school. Newsletters and other information are emailed home to parents regularly. Resources are available for families as they contact or visit the school. Additionally, our school improvement plans are provided for families to access on the website and within the minutes of Board of Education Meetings.

Woodstock Public Schools involves families in many ways throughout the school year beginning with a phone call from each student's teacher. Parents are invited in during Open House, Parent Conferences, Awards Celebrations, and Parent Book Talks. They are involved as members of the School Safety and Wellness Committees and invited to share their talents and interests through many volunteer opportunities. In addition, WPS engages parents through multiple surveys and community forums throughout the year for input for district improvement planning and programming.

Woodstock Public Schools is also fortunate to have organizations that support the students. These organizations are The Parent Teacher Organization, The Woodstock Education Foundation, and the Judy Nilan Foundation. All three organizations work to enhance the programming available to students in Woodstock Public Schools.

When a student is absent, and the family has not called the school, the district contacts the family. When there is an issue with attendance, the district Administrators and school counselors work with the students and families to promote increased attendance. Attendance letters are also sent when there is a concern of truancy.

Students who receive special education services are given resources to understand the process. Staff has been provided professional development for helping students with disabilities. Paraprofessionals have also received professional development to help ensure their understanding of working with students with special needs.

Woodstock Public Schools has implemented a district improvement plan with goals focused on increasing student engagement in grade level content through equitable learning opportunities for all students leading to improved academic achievement in all content areas. Each school in the district aligns their school improvement plan to the district. This is done collaboratively between the elementary and middle school building principals, teachers, and members of the Board of Education Academic subcommittee. Each school is committed to improving instructional practices as evidenced by multiple assessments used in the district. Teachers create goals based off of school improvement plans to increase achievement in all content areas.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Woodstock Public Schools introduces students to a wide variety of cultures through classroom instruction and special programs like TRIBES, Second Step, Hear, and Pride. While racial and ethnic diversity is limited in Woodstock, we aim to educate our students about different cultures through diverse texts in our language arts programming and studies of cultures around the world in social studies. Additionally, each year Woodstock Elementary School celebrates International Week, where a single country is learned about in depth, across the school, including traditions, attire, religion and foods.

Woodstock Middle School incorporates diversity awareness in classes such as music, art, reading, and social studies. A few examples: students study other cultures including a rain forest activity where students talk through a web conference with students in the rain forest, pen-pal activities with students from other countries, and listening and playing cultural music. Woodstock Middle School has also begun implementation of the RULER approach with Woodstock Elementary School set to follow for the upcoming school year. RULER is an evidence-based approach to social and emotional learning (SEL) developed at the Yale Center for Emotional Intelligence. RULER supports entire school communities in: Understanding the value of emotions, Building the skills of emotional intelligence and Creating and maintaining positive school climates.

Our district regularly partners with local social service agencies to provide programs and resources to families in need. Through this partnership, "weekend meal bags" are offered to families. School supplies, yearbooks, and assistance covering the cost of field trips are also provided. We provide holiday meals and gifts for families in need in partnership with various organizations within the community. The district also provides free meals to all students.

Within the past two years, Woodstock Public Schools has greatly improved student access to technology for all learners. All students are now equipped with a school issued iPad and access to the internet if needed through the ESSER grant funding.

Equitable Allocation of Resources among District Schools

Equitable allocation of resources are carefully managed during the budgeting process between January and June of each year. Each of our two building principals work with their staff and stakeholders in developing their individual school budgets. School improvement plans drive the budgeting process. Budgets are then combined into the district budget which is reviewed by the BOE Finance subcommittee, presented to the BOE and also discussed during a yearly Community Budget Forum.
