Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: 25

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The New Hartford Public Schools update the District's Strategic Plan and School Improvement Plans every year. Each school has a School Improvement Committee comprised of stakeholders across each school. The district's goals are aligned with each school's goal. Each School Improvement Plan is presented to the Board of Education and community yearly. The district continues to focus on Improving Student Achievement, School Climate, and Expanding Technology based learning opportunities for all students. The district has improved significantly in each of these areas.

An integral part of our District Strategic Plan and School Improvement Plans are parent and community outreach efforts. The district solicited input from staff and parents several times during the past year. The district surveyed stakeholders and increased virtual access to our Board of Education meetings. The district specifically surveyed staff and parents regarding the needs of the district. The district focused on ensuring a safe and healthy environment for all students and staff during the pandemic. The district successfully delivered in-person learning for the majority of the year.

The district's Special Education Department helped deliver a new literacy program to help students who exhibited learning loss over the past year. The Special Education Department expanded our Extended School Year to accommodate more identified students who struggled academically and socially over the past year. Our Special Education Department delivered two social-emotional screeners for all students to help them transition back to school successfully. The Special Education Department delivered its Special Education Program Plan again this past year that highlighted the goals of the department.

The district's new Social Worker worked extensively in the school community by partnering with parents to ensure students attended school consistently. The Social Worker visited homes and worked with community organizations to address truancy. The district's student attendance improved this past school year because of our outreach initiatives.

The district trained staff extensively to partner with families especially during Distance Learning. Through district Professional Development, staff learned new technology platforms to communicate with parents in a more robust and consistent manner. The district provided virtual parent workshops to connect with parents and train them on how to utilize "Google Classroom". "Google Classroom" is the main learning platform for the district. Parent-Teacher Conferences were held virtually as well to engage parents. This paradigm shift with our conferences worked seamlessly.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The New Hartford Public Schools continue to work with the Connecticut State Department of Education and regional school districts to reduce racial, ethnic and economic isolation. Some of the district's students attend Interdistrict magnet schools. This past school year, 17 students attended Interdistrict magnet schools. This number has remained consistent over the last several years.

One of the more exciting new programs in the district is our Advanced Manufacturing program. The New Hartford Public Schools partnered with Goodwin University. This innovative program will begin its third year. The program expanded to our 5th grade this past year. We now have our 5th and 6th graders working with the district's Media Specialist and a Professor from Goodwin University to deliver this exciting STEAM based program. This partnership will culminate with a celebration at Goodwin University in the spring that will bring our students together with students from across various ethnic and socio-economic backgrounds.

The district continues to plan activities that highlight the rich diversity in our state. The intermediate school will continue its time honored tradition of visiting the region's Native American Museum to study the numerous contributions of Native Americans to the State of Connecticut. The district will continue to plan educational activities that revolve around individuals from diverse backgrounds. Also, the district will continue to review our content area curricula to ensure an eclectic selection of reading materials are available for students.

The New Hartford Public Schools developed a robust Distance Learning plan for every student over the past school year. The district invested in a Chromebook for every student and ensured that every student had access to the internet. The Distance Learning plan was equitable for every student and allowed meaningful learning to occur for every student.

The district successfully partnered with a new Food Service provider to deliver free breakfast and lunch to all of our students for the entire school year. This federal initiative ensured that every student did not suffer from food insecurity and was prepared to learn on a consistent basis.

Equitable Allocation of Resources among District Schools

The New Hartford Public Schools work diligently to ensure that every student need is met. The district's administrative team meet regularly to develop a responsible budget that equitably devotes resources to every school. The district's 5 year Strategic Plan and School Improvement Plans highlight the priorities of the district. Each school has instituted a School Improvement Committee that identifies resources that are allocated in an equitable manner.

The district utilized a "Needs Assessment" this past year to identify the needs of the district. This tool provided useful data to support how resources are allocated.

The district continued to invest in academic programs that meet the needs of every learner. New literacy and math programs allowed for differentiated instruction to occur throughout the district.

The New Hartford Public Schools will continue to invest in technology based learning opportunities for every student. The district planned "Parent Nights" to help inform all of our stakeholders on the different learning models that are now accessible for all of our families.
