Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Consolidated School District of New Britain's (CSDNB's) District Growth Plan was created with Parental Engagement as a supporting condition essential for student success. To that end, the district's parent engagement office, the Family and School Liaisons, the Family Resource Centers and each school develop a year round calendar of events and sessions to provide important information to parents about their child and to solicit their input on critical programming. At the elementary level, Family Resource Centers provide Play and Learns for our youngest learners. Each school also has a minimum of three curriculum related evenings in which families learn about literacy and numeracy and social emotional education. Additionally, through progress monitoring in the elementary school, every family receives notifications early and often about additional supports students may need to stay on grade level. These communications are available in the home language of the family. At all schools, Family School Liaisons (FSLs) focus on increased attendance and decreasing the number of chronic absences that spiked during COVID. The FSLs reach out to families regularly and conduct home visits. Through various after school partnerships, the district also supports learning for students at community organizations such as the Boy's and Girl's Club, the YWCA, and Opportunities Industrialization Center. CSDNB deploys multiple strategies for family collaboration, including outreach activities and a strategic focus on increasing school-to-home communication from both the central office and the school sites. A full list of events throughout the district are advertised on the CSDNB.org district website.

Efforts to Reduce Racial, Ethnic and Economic Isolation

While CSDNB's academic performance data continues to show that New Britain students lag behind their peers in other districts, 2023-24 data has revealed some "islands of excellence" that leadership will use to expand effective practice. In 2024, for instance, the high school was named by UCONN as having the 6th highest number of students taking advantage of dual credit courses. Nearly a quarter of all students will graduate with some college credit and those offerings will continue to expand. New Britain High School also leads in the region with its four career centered academies in the area of business and finance, health sciences, manufacturing, engineering & technology (MET), and public service including education and first responder careers.

The district has made strides in addressing systemic issues of racial and ethnic isolation through policy. The Board of Education statement on Diversity, Equity and Inclusion outlines the district's commitment "to promoting an equitable and inclusive educational environment and seeking to provide all members of the school community with opportunities, resources, and support that facilitate learning and growth" (csdnb.org, 2021). Through careful comparison of the demographics of the district to district outcomes such as test scores, participation in advanced coursework, and attendance and discipline data, the district is identifying areas for improved equity. By identifying areas with "equity gaps" the district can guide decisions about professional learning for the adults and decisions that will result in more equitable outcomes for students. The district's efforts are also guided by the District Equity Leadership Team (DELT) Equity Transformation Plan focused on leadership development, students at the center, culturally responsive teaching and learning, and family/community engagement and empowerment. Additionally, the Superintendent's Diversity, Equity, and Inclusion Advisory Committee is made up of community members who provide feedback to the BOE regarding new policies aimed at enhancing equity.

Equitable Allocation of Resources among District Schools

Central Office and building level administrators collaboratively complete an analysis each year of student needs and propose allocations of district resources accordingly in the annual budget for the Board of Education's review. This team, made up of 40 budget owners, the Chief Financial Officer and the Superintendent, focuses on equitable funding distribution in response to the most current needs of all students. Additionally, the annual budget takes into account the per pupil allocation as it compares across general education, special education, and multilingual learners, as well as how it compares to neighboring districts.

The Partnership, Finance, and Accounting departments meet as a Grants Team to monitor the implementation of specific grant protocols, the use of funds, and grant budget guidelines and requirements. The team also meets with the budget owners to review district procedures and policies surrounding grant applications and spending.
