Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

NCPS is committed to continuous improvement in all areas, including in special education through a multi-tiered system of support. As outlined in the district's Response to Intervention (RTI) framework, we provide differentiated instruction and research-based interventions for all students. This is monitored through ongoing formative assessments to ensure each student meets or exceeds standards. NCPS is focused on expanding teacher capacity through professional learning, particularly in using universal screening tools and interventions that support students in both academic and behavioral areas?.

To combat truancy, NCPS is dedicated to creating a positive school climate by using data-driven interventions to address absenteeism. The district has incorporated social-emotional learning through initiatives such as our locally developed Social, Academic, and Personal Learning (SAPL) Framework, particularly for Tier 2 and 3 behavioral interventions. We also have implemented a comprehensive Emotional Intelligence program across all grades, K-12, and an outreach social worker position to help support families most in need of assistance by the school and/or town.

These strategies aim to identify at-risk students early and provide appropriate supports, fostering a strong sense of belonging and engagement in the school community?.

NCPS prioritizes professional development to strengthen family-school partnerships. Teachers and staff engage in training sessions on cultural competency, emotional intelligence (through the RULER program), and effective communication strategies. This helps build trusting relationships with families, ensuring that all voices are heard and considered in students' educational journeys?.

The district actively engages parents in decision-making processes through parent advisory councils and feedback mechanisms such as surveys. Parents are involved in collaborative discussions about school programs and improvements, particularly in areas such as special education and curriculum development. These advisory groups provide critical insights that shape district policies and initiatives?.

To strengthen the home-school connection, NCPS provides workshops for parents on a variety of educational topics, including literacy, math, and technology. The district offers resources such as online tutorials, parent education nights, and tools for monitoring student progress, empowering families to support their children's learning at home. Additionally, NCPS monitors the implementation of the digital citizenship curriculum to ensure students and families are well-prepared to navigate a technology-driven learning environment?.

These activities and strategies are embedded within the district's overarching goals of improving student achievement, fostering strong relationships with families, and promoting inclusive educational practices, ensuring that all students are supported to succeed academically, socially, and emotionally.

Another key initiative is expanding innovative teaching practices through the district's Vision of Innovation. By integrating cutting-edge technology, including artificial intelligence, and leveraging resources like The Dome, NCPS is fostering a learning environment where students engage in complex problem-solving and develop critical thinking skills that prepare them for a rapidly changing global society.

Efforts to Reduce Racial, Ethnic and Economic Isolation

NCPS is actively working to recruit and retain a diverse workforce through a variety of initiatives. The district has explored partnerships with programs like the UCONN Teacher Residency Program, which supports pathways to teaching for candidates from underrepresented groups. Additionally, NCPS has developed internal regulations aligned with Connecticut's Increasing Educator Diversity policy. This initiative aims to increase the number of minority educators within the district to better reflect the diversity of the state, national, and global population. NCPS also provides targeted professional development for staff to enhance cultural competency and promote inclusivity in the classroom?.

NCPS continues to make significant strides in offering programs designed to reduce isolation and foster greater cultural understanding. As part of the district's effort to create an inclusive environment, NCPS has integrated culturally responsive teaching across the curriculum. Professional development for teachers focuses on creating classroom experiences that reflect diverse cultures and histories, ensuring that all students feel represented in the content they study. The district also promotes Social, Emotional, and Academic Learning (SAPL), which includes elements of emotional intelligence (through the RULER program) and discussions around identity, equity, and inclusion.

NCPS continues to utilize technology to foster connections between students from diverse backgrounds. Through the district's Vision of Innovation, have the opportunity to engage in global collaboration projects that allow them to interact with peers from different parts of the world. NCPS has made considerable progress over the last three years in expanding its programs to reduce racial, ethnic, and economic isolation. Participation in student exchange programs has increased, and the district has seen growing engagement in global learning initiatives. Additionally, the district's focus on professional development in culturally responsive teaching and emotional intelligence has contributed to an inclusive school environment for all students and staff. These efforts reflect the district's commitment to creating a learning environment where every student feels valued & successful.

New Canaan School District

Equitable Allocation of Resources among District Schools

New Canaan Public Schools (NCPS) is deeply committed to ensuring that resources are allocated equitably among district schools, with a focus on addressing the unique needs of each student and creating an environment where all learners can thrive. Our resource allocation process is carefully designed to reflect both student needs and district priorities, ensuring that every school receives the support necessary to provide a high-quality education. This process is aligned with the district's goals for continuous improvement, equity, and student success.

At the core of NCPS's resource allocation process is a needs-based budgeting approach. Each school within the district undergoes a thorough assessment of its specific needs, driven by student enrollment data, academic performance metrics, and social-emotional factors. This data informs how financial, human, and material resources are distributed across schools. NCPS ensures that every school has equitable access to highly qualified staff, including teachers, counselors, and support personnel. NCPS also ensures that its capital projects, facility upgrades, and technology investments are distributed equitably across all schools.
