Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Milford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

In Milford Public Schools, we use a set of five anchor documents to guide, support and accelerate progress across the district. Our elected Board of Education revised two documents in 2021 reflecting updated Goals and Commitments, creating a solid base for our continued work. The remaining three documents, the High Quality Instruction (HQI) model, the Vision of the Learner, and the Developmental Relationships Framework, dovetail and guide our work every step of the way. Central to improvement of instructional practice is the involvement of our teachers in HQI capacity building. As an example of continued professional learning, this gives teachers new understandings regarding collaboration with their peers, the creation of thinking spaces for students, and a willingness to let students grapple a bit before making a conclusion. Add to our continued focus on growing a learning culture rooted in developmental relationships, our school community is thriving. Supporting mental health and wellbeing of our community is crucial. We continue to focus on ensuring a safe and secure climate where students feel comfortable sharing their thoughts with classmates and staff members alike. Redesigned daily morning meeting sessions and advisory lessons help us meet the growing needs of our students. We continue to provide a continuum of Special Education services to students eligible under IDEA. Our services are implemented in a manner that is compliant with state/federal regulations but, most importantly, aligned with best practices and current research. Students are educated with their non-disabled peers in the general education classroom to the maximum extent as considered appropriate for each individual student. Our strong transition program gives students ages 18-22 experience with job-embedded work and life skill development with local businesses. One example of this is the Parsons Perks coffee stand in our Parsons Government building. Students further develop social interaction and valuable workplace skills. We continue to develop and strengthen opportunities for school, family, and community partnership across all levels: elementary, middle and high school. Each of our 14 campuses has an organization designed for parent involvement a€“ PTA, PTO, Booster Clubs, and other parent groups. Families engage with us in a variety of ways including advocacy for the district budget, involvement with PTA Council, and membership on school committees such as the Safe School Climate Committee and the School Safety and Security Committee. Examples of discussion topics include presentations at monthly PTA meetings such as promoting awareness of social/emotional learning initiatives, transitioning fifth graders to middle school, and supporting literacy and mathematics at home (to name a few). The district administers an annual survey to all families regarding school climate and procures feedback on programming and communication efforts. We have successfully integrated the use of technology to engage families so they have access to programs and events they might otherwise not have been able to attend, such as virtual open house events, orientation sessions, parent teacher conferences, PPTs, and 504 meetings. We continue to explore ways to leverage technology and social media to share information with families and the wider Milford community.

Efforts to Reduce Racial, Ethnic and Economic Isolation

We are proud of our efforts to reduce inequity and isolation across our district and in partnership with city agencies and local organizations. One of our guiding documents, the Vision of the Learner, describes the characteristics and competencies that our district seeks to develop in learners of all ages. These include scholarship, personal development, citizenship and creativity/innovation, with citizenship providing key direction in our work toward race, equity, and social justice. Using these tenets, educators continue to revise social emotional learning and morning meeting lessons to promote student learning about diversity and inclusion. Additionally, at the middle school level, we support students through the implementation of the Wingman Program, the creation of a student-led Gay-Straight Alliance, and our continued support of initiatives such as the Be Kind Club and RIP Word Campaign. At the high school level, the first student-led Black Student Union was launched, along with a new course offering on African American/Black/Latino history. A new student advisory committee was formed and provides a platform for student voice in the work of race, equity and social justice. The district also hosts students through the Open Choice program and "continues to support enrollment in magnet school programs". As a 1:1 device district, hotspots are provided to families where internet access is not possible, creating an equal digital environment for all learners. Members from our technology team make home visits providing technical support for individual district assigned devices. Thanks to state funding, we have continued to provide students with free meals. The Salvation Army's Backpack Program continues to provide "new backpacks full of school supplies" for students in need. Partnership with our local YMCA and Boys and Girls Club ensured affordable before and after school childcare options for our families. Our Peer Mentor program partners high school students with elementary students to support their continued learning and engagement.

Milford School District

Equitable Allocation of Resources among District Schools

We continue to prioritize equitable allocation of resources among our fourteen schools. Using a zero-based budgeting approach, our district budget organically represents the needs of every classroom, grade level, department and school. These budgetary needs are in alignment with and support the Board of Education's goals, the VoL, our model for HQI and the Developmental Relationships Framework. In Milford, we are committed to a digital device ratio of 1:1 for every student and educator and HotSpot devices are issued to families where Internet access is not possible. Our Technology Department collaborates with our Instructional team to ensure families have resources and support to promote continued learning at home through the use of technology. In addition, our staffing model now includes a school counselor at each of our eight elementary schools introducing students and families to comprehensive school counseling and related supports/services. We have also implemented instructional coaches PK-8 and it is through this resource that embedded professional learning is provided to all staff developing capacity around our curricula and our HQI model.
