Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Newington School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Newington Public Schools are committed to a continuous improvement process. Measurable goals are supported by action steps and professional growth goals. Students' needs are identified through multiple measures and addressed through standards-based curriculum, research-based instruction and a wide-range of programs. Data driven decisions support the development of instructional practices focused on Tier I strategies and tiered interventions. Student performance data guides decisions regarding instructional practices, program and course offerings, selection of resources, and new initiatives. Emphasis is placed on closing the opportunity gap for historically marginalized and underrepresented students.

The district is focused on improving student learning to prepare students for life after graduation. NPS utilizes Professional Learning Communities to review student achievement data, design instruction, and conduct action research. We believe that if PLCs operationalize SRBI with fidelity using culturally relevant pedagogy, then all students will be successful. To that end, emphasis is placed on ensuring support for PLCs to engage in research aimed at strengthening the instructional core. Resources to support teams are curated to provide "just in time" learning based on needs. Instructional coaches provide job-embedded learning opportunities.

Another area of focus is to develop staff capacity to address, through conversation in PLCs, the racial opportunity gap. This requires ongoing job-embedded professional learning around Glenn Singleton's Courageous Conversations about Race (CCAR) so that educators can engage in meaningful dialogue about students, teaching, and learning. Educators use the CCAR Framework as means to navigate discussion within the SRBI decision-making model to analyze root causes and explore avenues for action research.

Special education teachers and related service staff provide instruction both in the general education classes through the inclusion model and in learning center classrooms. The district continues to contract with SERC to support improvement efforts focused on IEP development and implementation. Teams have developed collaborative practices to meet the needs of students in Tier I while also focusing on interventions. Student truancy is closely monitored. Teams work with families to identify and address obstacles to school attendance.

Paraeducators in our district play a critical role in supporting our students and teachers. Paraeducators participated in ongoing training focused on roles and responsibilities, supporting students in the classroom, behavior management, effective communication and collaboration with teachers, confidentiality, professional behavior and ethics.

Engaging families is critical to each student's academic success. Open House programs and conferences are held at all levels. The district implemented Parent Square this year, which allows for enhanced communication in multiple languages. Professional learning has focused on building awareness to enhance home-school partnerships. We have also expanded opportunities for participation in decision-making. Parent representatives participate on equity committees, including the School, Family, and Community Committee. Families and community members were also encouraged to participate in the Equity Audit to inform next levels of the work.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Our mission is to achieve equity within the NPS community. The Chief of Strategy, Innovation, and Culture for Equity has ensured an infrastructure to support ongoing work. The central office administrative staff have formed the District Equity Leadership Team (DELT) to support leaders in their efforts to affect change. The Administrative Council has been converted to be a structure to share information and resources as they address issues of equity. Together the DELT and Council are a support network that connects our leadership into a coherent frame, enabling NPS to better identify systemically effective leadership approaches to producing desired outcomes.

The infrastructure is supported by District and School Equity teams. The District Equity Team is conducting an audit of instructional decision-making, emphasizing culturally relevant pedagogy in instruction. The audit will help us bridge the gap between our current state and what we want to achieve. Findings will inform the refinement, sustainability, and/or establishment of infrastructure and the culture of decision making for equity.

The Student PANEL (Participatory Action-research to Name Equity in school Life) provides the perspective of students with respect to the impact of our efforts. Student PANEL will conduct research to analyze issues of equity, the results on student experiences, and identify responses to the findings. This group will be vital to our mission, aiding in decision-making that affects the entire NPS culture and community, specifically delineating the qualities of experiences of students from historically marginalized communities.

Professional development is focused and aligned to areas of improvement. The district capitalizes on 3 canons to drive improvement efforts: SRBI guidelines, Courageous Conversations about Race by Glenn Singleton, and Culturally Responsive Teaching and the Brain by Zaretta Hammond. Teams collaborate to conduct action research focused on culturally relevant pedagogy and monitor the impact of adult actions on student outcomes.

All staff participating in curriculum writing tasks, hiring committees, policy review/revision, or designing and delivering professional learning are required to complete a Culturally Responsive Teaching online learning course.

Equitable Allocation of Resources among District Schools

Newington Public Schools allocates resources across all schools based on enrollment and student needs. The operational budget is developed each fall in consideration of the number of students enrolled in each school. Consideration is also given to specific needs including equipment and facilities. Grant funds are used to provide supplemental resources to eligible schools and homeless students. We are concerned not only with the level of resources and how they are distributed across districts, schools, and classrooms, but also with how these investments translate into improved learning. Newington Public Schools allocation practices reflect an understanding of the imperative to eliminate existing inequities and close the opportunity gap.
