Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The following describes our plans, NB Strategic Plan, School Improvement Plans, and Curriculum Management. During the COVID-19 pandemic, NBPS attempted to remain steadfast in our plans as we serviced students in an in-person learning model for the entire 20-21 and 21-22 school years. The strategic plan was developed with NESDEC, with input from the staff, families, students and community. The dynamic plan incorporates the CCSS, CT Secondary Ed Reform, NEASC 2020 improvement plans, and results of ESSER needs' assessments. The plan's 3 goals focus on student achievement and school climate and facilities. Yearly, leadership analyzes performance data and interprets the results to prioritize and adjust improvement plans for each school and program for the upcoming year. This planning promotes organizational purpose, collaboration and shared commitment to goals. NBPS recognize that parents play a vital role in educating their child. Parent reps are solicited for school committees (Planning, Safety, PBIS) that contribute during planning and throughout the year. Parent input is solicited through Forums, PTOs, Booster Clubs, surveys and related instruments. Parents attend Open House, conferences, workshops, and at-risk and special meetings. To encourage family engagement, NBPS continues to keep families informed of school events, classroom news, and available services via multiple modes (PowerSchool, Google Classroom, SeeSaw, webpages, e-blasts). Feedback is provided (progress reports, report cards, at-risk meetings, i-Ready reports, individually) to ensure reported student data is individualized, specific and accurately describes each child's academic and social progress. Additionally, support materials and lists of effective resources are provided at all levels. NBPS has enriched/enhanced Spec Ed and Reg Ed programs and services by implementing a 2nd Smart Start Preschool class, K-2 Bridges program, and expanding RtI services to offer academic and behavioral support. To further improve support services and pandemic support, NBPS increased mental health staffing, para support, and coordination staff. Bridges, Life Skills and School to Work programs were enhanced through community partnerships, advances in transition services and personalized learning. A completely renovated house now serves as an authentic learning environment for our StW program. NBPS recognizes that children must attend school to benefit from our programs. Students and parents are provided access to PowerSchool online data including attendance for each class and their school attendance. The NBBOE's Attendance Policy requires monitoring of attendance and collaboration with families to ensure that students arrive to school on time on a daily basis. The policy was disseminated to all families through Student Handbooks. Student attendance is monitored and addressed by school personnel. If a child demonstrates a pattern of absences, parents are contacted and families and staff brainstorm ways to improve the child's attendance including counseling, behavior plans, PPT referrals, and/or referrals to outside agencies. At the elementary level, PBIS is used to encourage attendance. When deemed necessary, home visits, attendance hearings, referrals to DCF and petitions to juvenile court have been completed.

Efforts to Reduce Racial, Ethnic and Economic Isolation

NBPS are committed to reducing racial, ethnic and economic isolation. Students are offered opportunities to interact with students from a variety of ethnic and socioeconomic backgrounds. Curricula, interdistrict programs (ACES), multicultural events, and extracurricular activities and clubs enable students to appreciate diversity in their lives. Staff incorporate activities that celebrate diversity in curricula and instruction and at school-sponsored events. NBPS support character development and citizenship through Positive Behavior Intervention Supports (PBIS), Second Step, and other SEL opportunities. PBIS is firmly in place at each of our schools, ensuring students and staff are working together to build respectful, positive school climates and foster improved student achievement. Teachers have experience with the Responsive Classroom and Restorative Practices. A parent night was held in April 2022 to educate and include parents in the SEL work happening in NB. Components of our Character Ed program are Respect, Responsibility, and Caring. Subcategories of honesty, tolerance, and perseverance are integrated throughout the district. NB has monthly recognition assemblies and activities that promote multicultural awareness and build a sense of community- art exhibits depicting different cultures and celebrations of Black History, Native Americans, and Hispanic Heritage. Students participate in programs (Rachel's Challenge, ADL's Names Can Really Hurt Us) and advisory meetings designed to reduce bias. Students have opportunities to participate in clubs (Diversity Club, Gay-Straight Alliance) celebrating similarities and differences. Students are strongly encouraged to participate in community service from PreK on. Staff and students work together yearly to fundraise and collect food, clothing and necessities to assist economically disadvantaged individuals and families locally and beyond (Ukraine). The Community Roundup, an annual event stocking the local food bank, involves the entire school community. The district embraces the Open Choice program as a means to provide some welcomed diversity and reduce racial, ethnic and economic isolation. Several students participate in choice programs including the ECA, Sound School, and several NH Magnet Schools.

Equitable Allocation of Resources among District Schools

The NB Board of Education strives to allocate resources equitably throughout its schools. Budget development begins at the building and program levels using guidelines established by the BOE. An allocation formula based on per pupil need and projected enrollment at each school level provides for a fair and equitable distribution of resources. The Administrative Council meets to discuss budget priorities. The proposed budget is developed by administrators with input from teachers, department leaders and directors. This collaborative process promotes effective use of funds, ensuring expenditure choices meet the needs of ALL NB students. School-based budgets are reviewed to ensure alignment to the district's strategic plan, requirements of statutes, BOE policies, and collective bargaining agreements. Yearly, administrators conduct audits of the previous year's expenditures, complete comparative analyses, and perform impact studies to determine effectiveness of funds. Expenditures supporting curricular improvements are approved and reviewed by the Director of Curriculum and Instruction in collaboration with building administration and curriculum teams.
