Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Orange School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Orange Board of Education, administration, and staff consider communication with parents vitally important towards ensuring the children of Orange are successful learners. Our district relies on several communication channels to support parents. One of these is a website that offers a wealth of information about each school, upcoming activities, teacher webpages, policies, and so much more. Another channel is Alert Solutions. Our district uses this system to send out weekly newsletters/e-blasts and regular communication to families. In addition, staff newsletters and announcements regarding information about upcoming activities and district news are sent home weekly. Regularly-scheduled parent conferences are also held throughout the year to promote effective communication regarding progress and student needs. Standards-based grading and reporting, progress reports, student assessment, and early intervention reports all contribute to our communication efforts. We believe these specific communication channels enable parents to initiate discussions that support authentic, life-long learning. To further create a collaborative community of learners, workshops and on-line video resources are offered throughout the school year to help parents understand curriculum connections, assessments, intervention strategies, technology resources, and alternate ways of supporting and reinforcing learning at home. Resources, such as Newsela, Freckle, digital books, Lexia Core 5, Greg Tang Math (and others), are made available to students for home use to support and enhance learning.

In addition, several flexible, student choice-driven, and differentiated in-person summer learning opportunities have been provided to all families. These include core academic subjects at all levels, art, yoga, physical education, camp invention, Lego STEM, and martial arts to name a few.

The Orange Public School PTA/PTOs are also dedicated and involved groups of parents and teachers who work together to provide outstanding educational experiences for Orange students. Members of the PTA/PTO Cultural Arts committees provide monthly cultural experiences for our children to promote the arts and encourage the celebration of diversity while meeting curriculum standards. Other family-oriented activities to facilitate parent involvement are STEM Night, Drama Club, Math Night, Literacy Night, Parent Volunteer Programs, School Beautification, and BOE meetings.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Orange Leadership Teams and PTO/As are committed to providing experiences that guide students and staff to celebrate differences, interact peacefully, and demonstrate compassion. These efforts are fostered through regular meetings where experiences are discussed and created. Staff and student participation in the myriad of experiences created by PTO/A and Leadership Team members, reduce racial, ethnic, economic, and gender isolation.

The Orange Elementary School staff embed and integrate relevant resources to increase awareness of and sensitivity to diversity in the curriculum. As a result, meaningful and contextualized opportunities to learn about prejudice, compassion and tolerance are created. These efforts are supported regularly and consistently by our library media specialists, who include current books and resources which represent people from all walks of life in various settings, fields, positions, and careers in the collections they update.

In addition, students in Orange study a world language--Spanish. As a result, Orange students are immersed weekly in the language and culture of Hispanic people. Moreover, collaborative initiatives between special and general education departments expand students' understanding of children with significant disabilities. Grants from the Anti-Defamation League to train students on how to be allies and to work to eliminate exclusion and isolation among peers are also available.

Social-emotional learning (SEL) through the RULER approach, developed by researchers and educators from the Yale Center of Emotional Intelligence (Recognizing, Understanding, Labeling, Expressing and Regulating), and understanding adverse, childhood experiences (ACES), in addition to learning about restorative practices and healthy school climates. Each school for example, focuses on creating a climate where respect is emphasized and celebrated. Individual classrooms focus on pillars of character through classroom lessons, circle time, and morning meetings. Finally, economic isolation is ameliorated with grant support (Titles I,II,III,IV, ESSER I, 2 & ARP ESSER) and participation in the Open Choice Program.

Equitable Allocation of Resources among District Schools

The first pathway designed to ensure all Orange students have access to equitable resources is to provide every student with an opportunity to engage with a viable curricula aligned to Connecticut standards. Orange educators rely on contemporary curricular concepts to create real-world learning experiences that eliminate redundancy without compromising scientifically-based practices or findings from the learning sciences. Defining and identifying conditions for success is another critical pathway. Effective Tier 1 instruction, supported by effective scientific research-based interventions (SRBI), embedded in a comprehensive and balanced assessment system, result in accurate diagnosis and prescription for guaranteed student growth.
