#### Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

<sup>1</sup>If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

<sup>2</sup>If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served. Gap calculations are based on unrounded rates.

### Narratives

---

#### School District Improvement Plans and Parental Outreach Activities

##### Special Education:

Our administration and special education teachers work closely, and cooperatively with the local Bridgeport special education personnel, participate in their professional development and engage our parents, whose children receive services on a regular basis, through in-person meetings, calls and other means of communication, to be sure that we are all working toward the same goals and objectives.

Further, our special education teachers work closely with the regular education teachers to ensure that appropriate accommodations are implemented to meet all special education students' needs when they are in the regular education setting.

##### Truancy Prevention:

At Park City Prep, we prioritize, and recognize, excellent student attendance. Administrators and counselors work closely with families, whose children present any issues attending school regularly or on time; consequently, we have no truancy issues. We instill the words in our motto, which includes "responsibility" through our on-going advisory curriculum so that students, and parents, are very clear about the relationship between attendance and personal responsibility.

Engaging Families in Student Learning: Efforts to build staff skills to partner effectively with all families, and activities undertaken to support parents in working at home with their children on learning activities.

Our teachers communicate with our parents on an on-going basis, in direct parent calls and meetings, as well as through their teacher pages on our website, providing them with a host of resources to assist them in supporting their children at home.

Efforts to Engage Parents in the Planning and Improvement of School Programs: Parents are invited to serve on our Board of Directors and act as the parent representatives for the larger parent body; they play an active role in advising ways in which we can continually improve what we do.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

##### Choice Schools:

As a charter school, we are powerful and vocal advocates of school choice and do everything in our power to educate all parents, who express an interest in our school (not only those admitted), to seek admission to other charter schools, magnet schools and open choice programs.

Minority Educator Recruitment: One third of our teachers are minorities and nearly half of our staff is minority. In hiring, we make every effort to hire qualified minority candidates, who represent the backgrounds of our students.

Reducing Racial, Ethnic and Economic Isolation: 90% or more of our 8th grade graduates go on to attend public choice and private high schools, where the population of students is far more diverse than in our own school or our local community. We educate our parents and our students about these options and how to apply to these schools and, in the case of tuition-charging, private schools, how to secure the financial aid, needed to attend them.

Other Experiences Designed to Increase Student Awareness of the Diversity of Individuals and Cultures: Through our regular instructional programs, particularly in social studies and language arts, students learn of the contributions and experiences of people of many different cultural and ethnic backgrounds, and how they have contributed to the richness of our nation.

By educating and guiding our families to choose public choice and private high schools, they become part of culturally diverse student populations for the next four years of their lives and, thereby, experience first-hand the different cultural and ethnic backgrounds.
