Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Gap Indicators	Non-High Needs Rate ¹	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev ²	Is Gap an Outlier? ²
Graduation Rate Gap	94.0%	88.4%	5.6%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

North Haven Public Schools continues to move forward with the creation of their Portrait of a Graduate. All stakeholders were involved in its creation and we will continue to incorporate it's skills and character traits into the fabric of the district.

All students in the district are equipped with a 1:1 device to enhance in-person instruction as well as provide remote learning opportunities. The Informational and Educational Technology Department has developed a multitude of instructional videos and guides for families to assist with remote learning as well as provided mobile hot spots for families to ensure that students can access instruction.

The District has also increased the number of mental health supports throughout each level. This support comes in the form of additional counselors as well as the establishment of a community-based mental health clinic at the secondary level.

The district also continually improves the effectiveness of all district programs with a focus on special education. Our programs at the preschool level up through the transitional program continue to expand their offerings to better meet the needs of the whole child. Regular and special education teachers collaborate across grade-levels and content areas in order to maintain rigor and meet the needs of all learners.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The District-wide Diversity and Inclusion Coach has held professional learning sessions with teachers and administrators around equity and social-emotional learning. District Coordinators have also collaborated with the D/I Coach to review curriculum. In addition, the administrative team has participated in equity training with the State Education Resource Center (SERC).

NHPS has also received a grant from ACES to utilize for the recruitment of minority educators.

North Haven Public Schools participate in the Open Choice Program and currently have a number of students who reside in New Haven attending district schools. We also send high school students to the Educational Center for the Arts (ECA) at ACES.

During the year, the district has utilized multiple resources and organizations to support and facilitate training sessions around diversity for our students and staff. Social emotional learning is a focus at all grade levels and lessons are provided on a regular basis incorporating self management, self awareness, social awareness, responsible decision making and relationship skills.

Equitable Allocation of Resources among District Schools

School resources are distributed in such a way that each building receives as much of what they request each year, as possible. As a result, at the elementary level, spending for the core instructional programs differ primarily because of differences in each schools' enrollment. All other purchases at the elementary, middle and high school levels are the result of specific student needs as identified through our special education and intervention teachers, specialists and coaches. Finally, every effort is made to provide schools with any requested resources that align with either the school or district improvement plans.
