Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: 15

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The Orange Board of Education, administration, and staff consider communication with parents vitally important towards ensuring the children of Orange are successful learners. Our district relies on several communication channels to support parents. One of these is a website that offers a wealth of information about each school, upcoming activities, teacher webpages, policies, and so much more. Another channel is Alert Solutions. Our district uses this system to send out weekly newsletters/e-blasts and regular communication to families. In addition, staff newsletters and announcements regarding information about upcoming activities and district news are sent home weekly. Regularly-scheduled parent conferences are also held throughout the year to promote effective communication regarding progress and student needs. Standards-based grading and reporting, progress reports, student assessment, and early intervention reports all contribute to our communication efforts. We believe these specific communication channels enable parents to initiate discussions that support authentic, life-long learning. To further create a collaborative community of learners, workshops and online video resources are offered throughout the school year to help parents understand curriculum connections, assessments, intervention strategies, technology resources, and alternate ways of supporting and reinforcing learning at home. Resources, such as Newsela, Freckle, digital books, Lexia Core 5, Greg Tang Math (and others), are made available to students for home use to support and enhance learning. In addition, summer reading and math challenges are provided to all students, along with suggestions for planning fun and educational activities that support learning during the summer months. We believe our means of communication invite parents to be informed and involved in their children's education and the greater school community.

The Orange Public School PTA/PTOs are dedicated and involved groups of parents and teachers who work together to provide outstanding educational experiences for Orange students. The PTA/PTO Cultural Arts committees provide monthly cultural experiences for our children to promote the arts and encourage the celebration of diversity while meeting curriculum standards. Other family-oriented activities to facilitate parent involvement are STEM Night, Drama Club, Math Night, Literacy Night, Parent Volunteer Programs, School Beautification, and BOE meetings. These activities have been modified this year due to COVID-19, however, the district continues to develop, foster, and sustain positive relationships within the community.

Efforts to Reduce Racial, Ethnic and Economic Isolation

We are committed to guiding our students toward celebrating differences, interacting peacefully, and accepting others. The Orange Elementary School staff continues to strive toward providing opportunities for students to explore experiences from other cultures. As a district, we continue our efforts to expose our students to various cultures by providing programs connected to the curriculum that increase awareness of and sensitivity to diversity. Offerings throughout the year include experiences that emphasize Native American, African American, Middle Eastern, Hispanic American, and Asian American themes. Students are exposed to cultural studies surrounding Hispanic Heritage Month, Black History Month, and Chinese New Year. Every year, the study of famous Americans from various culturally diverse backgrounds expands through literature, and students have opportunities to learn about prejudice in meaningful contexts that promote tolerance. Students participate in a myriad of multicultural experiences. In addition, our library media specialists continue to include books in collections that represent people from all walks of life in various settings, fields, positions, careers.

There have also been initiatives through our special education department and regular classroom teachers to expand their students' understanding of children with significant disabilities in our classrooms. Moreover, students in Orange study Spanish as a world language and are immersed weekly in the language and culture of Hispanic people. Finally, all Orange Elementary Schools participate in PBIS (Positive Behavioral Interventions and Support) and social-emotional learning (SEL) through the RULER Approach, developed by researchers and educators from the Yale Center of Emotional Intelligence (Recognizing, Understanding, Labeling, Expressing and Regulating). Each school focuses on creating a climate where tolerance and respect are emphasized and celebrated for all. Individual classrooms focus on emphasizing pillars of character through classroom lessons, circle time, and morning meetings. Efforts will commence this year to focus on skills that create emotionally intelligent schools.

The district participates in the Open Choice Program and enrolls students from New Haven. Some schools re

Equitable Allocation of Resources among District Schools

The first pathway designed to ensure all Orange students have access to equitable resources is to provide every student with an opportunity to engage with a viable curriculum aligned to Connecticut standards. Orange educators rely on contemporary curricular concepts to create real-world learning experiences that eliminate redundancy without compromising scientifically-based practices or findings from the learning sciences. Defining and identifying conditions for success is another critical pathway. Effective Tier 1 instruction, supported by effective scientific research-based interventions (SRBI), embedded in a comprehensive and balanced assessment system, results in accurate diagnosis and prescription for guaranteed student growth.
