#### Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

#### School District Improvement Plans and Parental Outreach Activities

Canterbury Public Schools is delighted to fully welcome families into the school building and to school events now that concerns related to the transmission of COVID are significantly reduced. Seasonal concerts, reading celebrations, and family dinners have taken place this year after a multi-year hiatus due to the pandemic, and our event attendance has been extraordinary. We will continue to seek feedback relating to our programming, initiatives, and support through parent surveys to fine tune our priorities related to academic and social learning, and supporting parents with non-academic barriers to their children's school attendance and overall health and well-being. Our ongoing district-wide focus on Social Emotional Learning (SEL) builds upon our existing foundation, which includes an analytic look at our social/emotional screening results. Our social workers and school psychologist present our district's profile to teachers at the school, grade, classroom, and individual student level, which helps our clinical team design interventions and helps our classroom teachers know what skills their students need to foster resilience. This work complements our historic inclusion of Restorative Practices and Positive Behavior Intervention and Supports, and it allows us to evolve our responsive approach to helping students and families solve problems that impact school performance. Faculty, staff and bus drivers participated in training to effectively respond to the needs of students with various SEL needs, and particularly with Autism and ADHD.

Our Special Education Advisory Council (SEAC) continued to meet throughout the school year and designed an information booth at each school during parent conference nights. Information was provided on Dyslexia and helping students develop strong reading habits since this is a rapidly growing area of need in our schools. Information was also provided on transition services so that families of students with disabilities can begin to learn about the programs that may support a child's increasing independence in and out of school. PTO meetings, Special Education Advisory Council, Planning and Placement Team meetings and Board of Education meetings are largely in-person, and we frequently offer a hybrid option for families to attend with greater flexibility.

This school year, and aligned with our District Improvement Plan, professional development was provided to our district's teachers to implement new math and phonics programs. A team of teacher-leaders participated in a CSDE-initiated masterclass on the Science of Reading, which complements our focus on evidence-based instruction in reading using the Orton-Gillingham approach, Really Great Reading and Wilson. Improvements have been made in our screening for, and evaluation of, students with reading disabilities, and intervention includes highly effective data collection, analysis and ongoing progress monitoring to target instruction for those who need it. Our Pupil Service Department has learned a new IEP platform rolled out by the state of Connecticut on July 1, 2022, and has focused new learning this year on using this system for the documentation of 504 Accommodation Plans and IEPs.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

Canterbury Public Schools continue to provide a program rich in multicultural activities. Students in all grades are introduced and exposed to a variety of literature, research and activities that emphasize a worldwide cultural experience designed to increase awareness of diverse cultural and economic backgrounds. Literature, both fiction and non-fiction, about people of various ethnic backgrounds and special education challenges are embedded in instruction across the curriculum and grade levels. Our school libraries have been gentrified which helps to increase the circulation of current multicultural books, and funding was provided to continue to improve the diversity of our library collection.

We have planned significant improvements to our Home Language Survey and improved our screening of children from dual language households, now fully offering a Language Acquisition Plan for those who demonstrate limited proficiency in the English language. Our PreK program prioritizes the needs of children from economic isolation, offering academic and unified art opportunities for 3 and 4 year old children. Middle schoolers have the opportunity to participate in the National Conference for Community Justice, and a course called Social Literacy has been added to the middle school curriculum, giving our 5th and 6th graders the opportunity to engage in meaningful novel studies. Additionally, a grant in the amount of \$120,000 was applied for to increase the connection between home, school, and greater community with an emphasis on accessing untapped resources.

Improvements to internet and device access, district-wide, allows us to bring diverse experiences into the classroom. New Chromebooks, iPads, teacher laptops, projectors, and smartboards have allowed us to increase exposure to people, places, and cultures different from ours.

### **Equitable Allocation of Resources among District Schools**

The mission of Canterbury Public Schools states: In collaboration with our Community, the Canterbury Public Schools will develop, foster, and cultivate all students to their highest potential, through rigorous academics within a safe, nurturing, and respectful environment. Canterbury Public Schools comprises two schools and prides itself on providing the appropriate resources and materials necessary to educate all students.

Teaching and learning is the focus of the district. We use a district-wide modified zero-based budget process in which each district school is represented; feedback from staff and faculty about needs during the school budget is heard. We, as a learning community, will promote student achievement by focusing on coherence. Additionally, the Capital Improvement Program with community representation provides funding for computer and technology upgrades district-wide. Once graduating from eighth grade, students are given the opportunity to choose where they will continue their education. These choices include three high schools, two vocational schools, and one vocational agricultural school. The tuition and transportation of these students is provided by the.
